*Actual results may vary from the results depicted above depending on your individual credit worthiness and financial planning strategy. Retirement savings calculated with 8% annual return on investing equivalent of current debt payments.

- Develop a plan to payoff all your debts in five to ten years, using the money you already bring home.
- Lower Stress in your career, your relationships, your whole life
- Regain ownership of your life.
- Regain the options to live where you want, do what you want, be who you want.
- Become "invulnerable" to changes in the economy or your job.
- Get back your HOPES and DREAMS
- Look forward to the future, instead of fearing it.
- Create a complete, step-by-step, month-by-month plan to do it all.

How does the Rapid Debt Reducer™ work? In about 10 minutes, you enter in your monthly

payment amounts, balances and interest rate of each debt, and any extra money you think you can spend to accelerate eliminating your debts.

The Rapid Debt Reducer™ creates a detailed debt elimination plan that tells you the order that your debts are to be paid off. Once one debt is eliminated the software then applies that payment amount to the next debt (this is called debt stacking) until all debts are gone. It's that easy! The Rapid Debt Reducer™ comes with many other financial calculators. One Calculator will show you how much money you can save just by using the money that was going to service debt payments. Once you use this calculator you will never want to buy on credit again!

The genius of this software is that it actually uses the same calculations the credit card companies use to make sure you pay the most on your balance. The Rapid Debt Reducer gives you the same power as the credit card companies - so you can deprive them of as much of your money as possible!

Just imagine what your life would be like with no debt! **Imagine** a future with no bills except utilities, property taxes, and food. **Imagine** being able to live wherever in the world you want, doing whatever you'd like to do each day. **Imagine** not being stuck in a dead-end job... just because it can pay the bills. This future can be yours much sooner then you think.
