

Designer — Mark

This year, and every year after you'll feel better sending a holiday card that makes great dreams come true. Your extraordinary cards for the holidays were designed by students at Glenwood School. This unique partnership with Deremiah, the award-winning artist, and Jais, Inc., is helping the students appreciate the entrepreneurial spirit. Students involved in this program received a great opportunity to apprentice while learning skills in basic design, strategic planning, merchandising and marketing. Glenwood School empowers at-risk youth by providing them with the skills and values they will need to succeed as adults. Glenwood offers its unique residential and educational program at almost no cost to the parents, primarily low-income single mothers, who rely on us for assistance. The school was founded in 1887 in Glenwood, Illinois.
