Our daughter Noa responds clearly to the Lovely Baby CDs. Before we used other baby music but this was without any results other than getting her sleepy. With the Lovely Baby CDs the effects are totally different. When listening we notice she becomes more aware and very active. She starts to respond to all the sounds she hears. As soon as I put the music on she starts to laugh which makes this music her absolute favorite. **FFM / The Netherlands**

We played your Lovely Baby CDs from the moment our son was born. In that period he spent a lot of time in the crib. One could clearly see him listening to the music and absorbing the atmosphere. He is now 10 months old and whenever we play your music, very impressive, he turns his head and looks at the place where the kidcube used to be located. Then he looks at me and smiles. It truly reminds him of those first few months in which he so much enjoyed Raimond's music. **LC / Germany**

About Lovely Baby CDs

The Lovely Baby CD series is the first line of music specifically created for babies, and the first non-classical series for prenatal to 36 month-olds. Created by Dutch composer, Raimond Lap, this all-instrumental series integrates baby and toy sounds into contemporary styles of music that not only optimizes brain development, but helps build intellectual, social, emotional, motor and language skills in babies. No other CDs have gone through so many tryouts as this highly acclaimed and successful series.

Unlike any other music available for babies on the market today, Lovely Baby CDs help create a peaceful, loving home environment, which explains why adults love the music as much as babies do. Lovely Baby CDs are considered a revolution in baby edutainment throughout Europe and Asia. Currently available in 50 countries, this music has been overwhelmingly successful with babies all around the world - regardless of ethnic background, nationality or native language. Lovely Baby CDs are truly the international language of babies.

Creator of the Lovely Baby CD series, Raimond Lap, is a gold and double-platinum award-winning composer. He is recognized around the world as a leading baby music expert. Millions of babies worldwide listen to his music. Procter & Gamble / Asia calls his music, "the best baby music in the world."

This collection fuses classical and jazz instrumentals with natural sounds and cooing baby vocals. The effect is both lovely and calming, especially in tunes like "Baby Smells The Sea," in which the sound of rushing water accompanies compositions on guitar and keyboard. **PARENTING MAGAZINE**

Preschool Dutch composer Raimond Lap is the mastermind behind the Lovely Baby series which grew out of his desire to develop music to stimulate babies' minds. These mostly soft, gentle melodies will be pleasing to the ears of infants and very young children. These CDs will best be used in collections circulating to child care professionals as well as to parents and relatives of babies and toddlers. **SCHOOL LIBRARY JOURNAL**

Lovely Baby is an interesting line of recordings for babies. Baby Classics is a truly "lovely" collection of classical music, for example. It features classical pieces like Moonlight Sonata, Brahms' Lullaby, and Ode to Joy by composer Raimond Lap. There are no lyrics, except for baby babbles and some sounds of nature. It's very peaceful, yet gently stimulating. We will have a full review of this series soon. **EDUTAININGKIDS.COM**

For those parents wanting to introduce sound to their babies, there is a new set of CDs out that not only has music but the "sound" of babies cooing in every song. **JODY LYNN**
Jody writes the nationally-syndicated column "Parent-To-Parent"

Parents will enjoy the benefits of a greater bonding experience with their children that this music provides, and realize less stress in their own daily lives. **PENNY WARNER, baby expert**

I believe parents will learn a lot about their babies by observing their child's responses to the rich sounds and melodies.
