

Who is OcuSource

OcuSource is family of websites supplying critical resources to the blindness industry. Acting as a portal to the entire industry, OcuSource assists the consumers, agencies, organizations, and manufacturers with multiple online resources:

- www.OcuSource.com Information, resource finder, news, new products for vision loss and blindness
- www.OcuTrade.com Auctions for used low vision and blindness products
- www.OcuBid.com Online bid management for agencies, organizations and corporate buyers
- www.OcuTrack.com online visual acuity screening utility

Why use OcuBid

- OcuBid is **FREE** to those who submit the bid opportunities
- Eliminate the paperwork associated with distributing bid opportunities
- Receive maximum participation and **best pricing** due to more competition
- Obtain bids on installation, training, adaptive devices, computers, and software

Summary of the OcuBid Processes

In just minutes, you can create an RFB, and have it viewed by dozens to hundreds

The general process from beginning to end

- 1. Begin a new RFB
- 2. Set the start and end date
- 3. The first page is general information about this RFB
- 4. The second page is the line item specifications
- 5. Post the bid (still available to review)
- 6. Publish the bid (now its out to the vendors)
- 7. Vendors are notified of your RFB via email
- 8. After the end date no more bidding concludes
- 9. Log in and review the bids
- 10. Award the Winner
- 11. Winner is notified by email
- 12. Contact the winner to initiate purchase/requisition

Bidding Begins

Once published, the RFB may now receive bids from vendors. Bidding continues until the date defined in the setup of the RFB. Once the end date is met, vendors are not able to bid on that RFB.

Awarding Bids

Once the bidding ends, simply open that bid, click AWARD, and select the winner, and the winner is notified by email.

RFB's are archived for future review.

Once the award has been completed, the Submitter then contacts the vendor to issue toe purchase order.
