## PEOPLE OF COLOURS-CELEBRATION OF LIFE

**JOHN G. BOX**  
PRESIDENT OF COLOURS IN MOTION

*Like our products the personality of Colours is that of leadership and understanding, "no pun. intended". We hope to provide an outlet to voice suggestions, ultimately allowing you to change the way people see the disabled and yourself. It is our goal to increase each persons experiences through mobility, education and most important the general societies awareness toward people.*

*Yes, we believe we produce some of the best wheelchairs in the world. But, that is not what we are bragging about. What we are really proud of are the people who are using our chairs. They are in our eyes individuals who have a spirit unmatched by our competition. So, our thanks are to you the customer for joining our mini community and doing what you do best live you life to the fullest!*

*Welcome! We are Colours 'N Motion. Over the next few pages you will learn what separates us from our competitors. While other manufacturers may label us too "extreme" or "controversial", we take that as a compliment. We are proud to be pushing the envelope in terms of design, technology and attitude. We take our products seriously by designing them to enhance your quality and spirit of life. Colours 'N Motion offers more than just a look – an exciting, daring approach to life.*

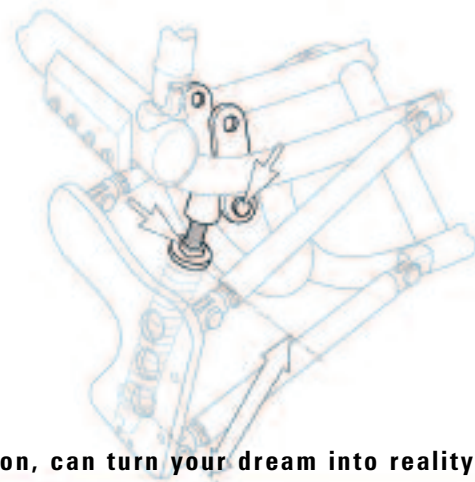

**COLOURS**  
IN MOTION

*Colours 'N Motion is not just a manufacturing company, but a movement. We constantly challenge ourselves so you can challenge yourself to live life to the fullest. Not only are our designs and technology cutting edge, our support team is without equal. A lifetime warranty on all rigid parts gives you the freedom to concentrate on the important things in life. A personal phone support line gives you the security that a few companies can match. That's because Colours 'N Motion is not just a manufacturer but a goal driven mission. We want the world to realize what you already know...that there is life after disability. We hereby serve notice to the world that Colours 'N Motion is a passport to living and celebrating life in a way previously unimaginable.*

## A-Arm Suspension

*The a-arm suspension is the key to the comfort and security you feel when you ride in the "Boing!" With a lifetime warranty that includes the springs and shocks, you can know that this wheelchair is one that can accommodate your lifestyle whether you're going to work, going camping or going dancing.*

## BOING!

Imagine the ultimate ride. The "Boing!" with its four wheel independent suspension, can turn your dream into reality.

A chair that softens the hardest terrain, the "Boing!" offers the smoothest most comfortable ride possible.

## Adjustability

*As with all of the Colours 'N Motion line of wheelchairs, the "Boing!" is fully adjustable. Whether you like having your seating positioned conservative or radical the "Boing!" will accommodate your every need.*

# ECLIPSE

Everyone faces their own challenges on a daily basis. The "Eclipse" everyday wheelchair helps you overcome the insecurities in life and allows you to concentrate on the many features that the "Eclipse" has to offer. By not having to worry about your wheelchair, you can get on with the business of living and fulfilling your potential.

## Active and Rehab Usage

The Eclipse comes standard with either zero or seven and half degrees of camber built right into the frame. This added feature is beneficial for everyday usage or sports activities. The "Eclipse" can be ordered conservatively with minimal camber, push handles, brakes, armrests and wheelie bars. Then, if you decide you want a change, you can add another camber setting and remove the push handles and armrests. The "Eclipse" offers total adjustability and flexibility in set ups that few chairs can match.

## Compactability

The "Eclipse" wheelchair offers not only a design to fit your bodily curves; it was made for convenience and easy compact handling. The versatile inside mount axle plates enables the Eclipse to get through even the narrowest

bathroom doorways. Quick release front and rear axle pins options are available on the entire line of the Colours 'N Motion wheelchairs. All of these features combined with dual camber settings available from 0 to 12 degrees will provide you with the compact versatility that you need for daily activities.

## Caster Assembly

Our front caster assemblies come standard with either three or five inch caster wheels and an option of front quick release axle pins. Many times changing your front seat height is crucial for find your optimal positioning. With the Eclipse the adjustability is endless within your front caster assembly. You can even add springs to your casters to help absorb some of uneven terrain that you may face during your daily activities.

# HAMMER

Imagine the sensation of a train going full speed. Such is the excitement you will find in the "Hammer" by Colours 'N Motion. The feedback we have received from our past customers is that it is a unique piece of equipment, unmatched by anything in its class.

The "Hammer" rewrites the rules regarding rigid frame design. From its large aluminum tubing diameter to the wide "Hammer" head front-end design, the "Hammer" is the ultimate contact sports wheelchair.

Designed by a team engineers headed up by Mike Box the "Hammer" is constantly evolving into a unique high performance piece of equipment that has been proven to be the best in the world. By working carefully with the entire United State Para-Olympic rugby team as their equipment coordinator, Mike Box made it possible for them to bring back the gold medal for the United States. Designed specifically for contact sports the "Hammer" is equipped for rugby, hockey, football or softball. And by having just about complete freedom in its design, you will be able to play to your game to its maximum capacity.

## Huge Super Tubing

The "Hammer" is constructed with an Aerospace Drawn Tubing 6061-T6 WW1-/700/6S-2. Accompanying the Super Tubing is a wide stealth design guaranteed to give you the winning edge in any competitive endeavor. The "Hammer" is a unique opportunity to have a chair custom designed to meet your every need.

## Go Ahead, Hit Me!

Our custom anti-tippers are a truly winning and innovative design feature. Whether choosing a single or double design, they offer an advantage which cannot be ignored. Now you can concentrate on the game rather than the effects of gravity. The "Hammer" is the sports utility wheelchair that gives you such a competitive edge its almost unsportsmanlike.

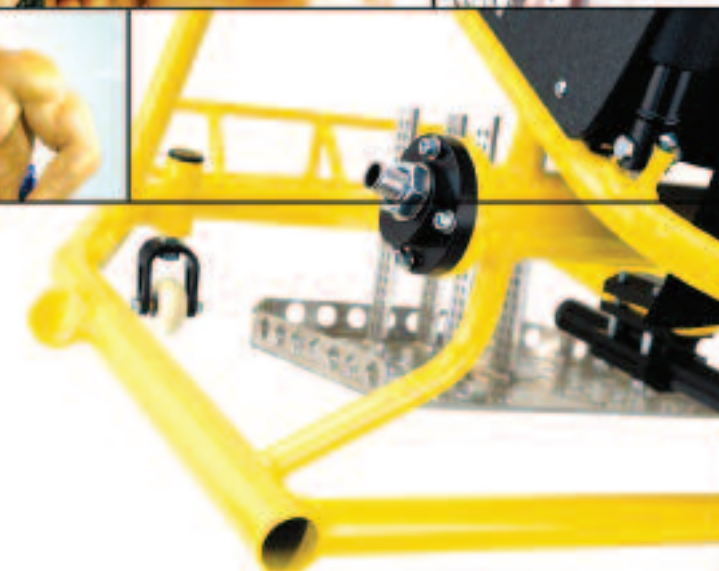

## Turn on a dime

With up to 20 degrees of camber, you can turn on a dime and glide by the competition. The dynamic design of the HUGE super tubing and camber plate allows you to make minor adjustments thereby improving both your performance and your game.

## Hooked Up

If defense is your game...a defensive rugby player perhaps. Just imagine what type of custom front-end picker you want to design for your "Hammer" wheelchair. The next time you want to reach out and hold someone or maybe grab them try the "Hammer" and its rigid picker front-end.

Colours 'N Motion "Spazz" offers you the style, versatility and adjustability you need in your first wheelchair. With its simple design and clean lines not only will you look good in your "Spazz" but your maneuverability will be unsurpassed.

## SPAZZ

Wouldn't it be great if we could get back to a simpler way of life? A less complicated world filled with user friendly wheelchairs. Stop dreaming and climb aboard the "Spazz".

### Contoured Frame

The main "rigid" axle tube gives you an increased rigidity and support within your wheelchair frame. Match this up with a "middle" frame contour and you will never have to worry about hitting your steering wheel again when loading the "Spazz" into your car.

### Adjustability

Many therapists insist that their newly injured patients sit at higher rear seat heights. With the "Spazz" your rear seat height adjustability is endless. Colours has done this by incorporated optional height adjustment plates into the design of the "Spazz".

The "Spazz" also comes standard with 0 to 6 degrees of camber, height adjustable and angle adjustable backrest and footrest. And if this was not enough the "Spazz" also features our fully adjustable caster housing assemblies. This unique feature comes standard on the majority of the Colours 'N Motion's wheelchairs. With the Colours caster housing assembly you will be able to perfectly align the front end of your wheelchair even while completely changing the front caster position. This will enhance the performance of your wheelchair and in the end make it easier to push and control.

## ZEPHYR

The "Zephyr" is a conceptually unique wheelchair that is exclusively made in the USA by Colours 'N Motion. With its ultra-lightweight design starting at 14.5 lbs.. (including rear wheels) to its unsurpassed remarkable fit, the "Zephyr" is truly a one of a kind creation that can not be matched by any other manufacturer.

Colours created the "Zephyr" for our meticulous customers that know exactly how they like to sit and function in their wheelchairs. This wheelchair is not for virgin first time wheelchair users. Our customers build each "Zephyr" by hand. You design it! You build it! You bend it! You are the engineer!

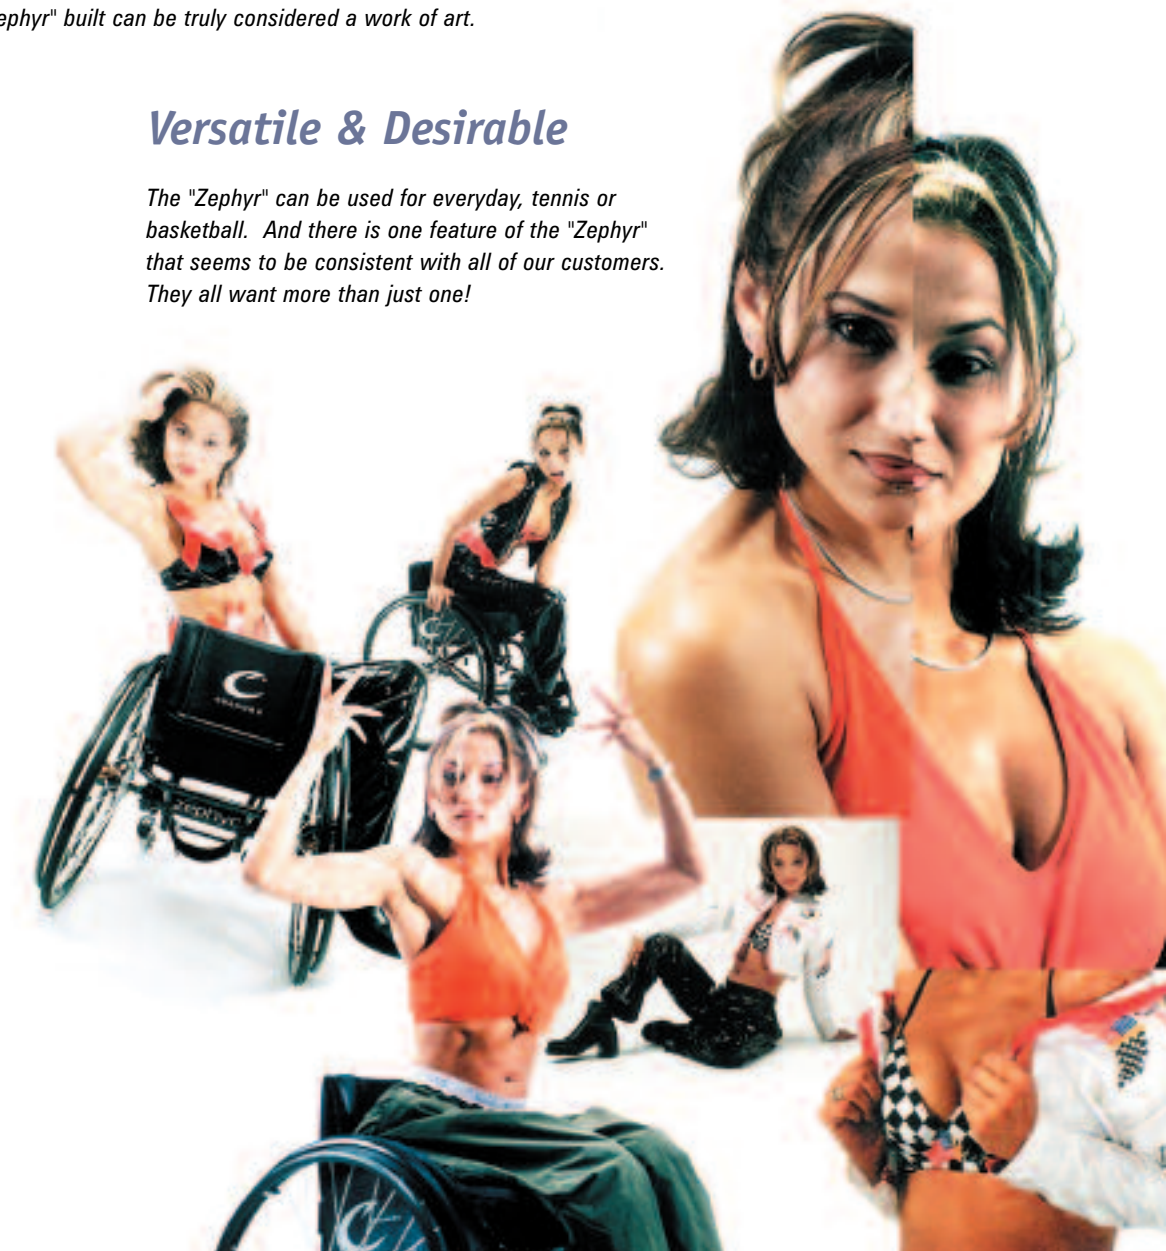

## The Perfect Body

How many manufacturers today will allow you to give them exact measurements in 1/2" increments? The "Zephyr's" options are endless. From custom seat depth to its custom center of gravity built right into the frame, the "Zephyr" will only accommodate the most demanding customers. By being unique in their own aspect each "Zephyr" built can be truly considered a work of art.

## Versatile & Desirable

The "Zephyr" can be used for everyday, tennis or basketball. And there is one feature of the "Zephyr" that seems to be consistent with all of our customers. They all want more than just one!

# KRYPTO

Does your lifestyle and personality surpass ordinary ultra lightweight wheelchairs? Are you tired of looking at the same models on the market today? Look no further. Colours has once again rescued the market by creating the Krypto wheelchair. With its unique innovative design and immense adjustability, this wheelchair finally completes both your functional and aesthetic needs.

Everyone has his or her own unique fit and comfort zones. Krypto will meet your unique positioning and custom fit your body into your own comfort zone.

Who knew you could have width and depth adjustability on an ultra lightweight wheelchair frame? With adjustability built into the front seat height, rear seat height, and center of gravity, could the Krypto offer anything more? How about adjustable angle footrests to match any unique individual fit.

## Adjustability

At Colours we love challenges. Unique positioning and fit is one of our greatest fortes. We understand that the average wheelchair consumer spends approximately 14 hours a day in their wheelchair and that they will receive a new wheelchair approximately every 5 years. This totals 25,550 hours in your wheelchair. If you were to travel in your car at 60 mph, these hours would total approximately 1.5 million miles.

# XTREME

## Adjustability - Rear Tube Assembly

*One way to accomplish this concept of becoming one with your wheelchair is through adjustability. The "X-treme" has full adjustability through its rear tube assembly. Whether you are looking for the perfect*

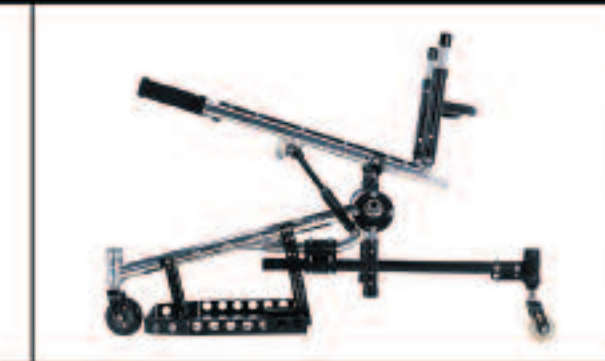

*front and rear seat height, adjustability in your center of gravity or being able to fine tune your wheelchair, this is one three wheeler that fits the bill.*

## Adjustable Foot Plate

*With vertical and horizontal adjustability you will be able to set your leg and foot angle perfectly to meet your comfort and competitive needs.*

## Custom Rear Wheelie Bar

*Colours has once again answered your request. We are the first to come out with a fully adjustable and rotational rear wheelie bar. By using this accessory you will be able to rely on a fourth wheel for performance on the tennis court. No longer will you need to have your wheelie bar custom bent for your specific seat positioning. This wheelie bar makes all others look antiquated and renders other models obsolete.*

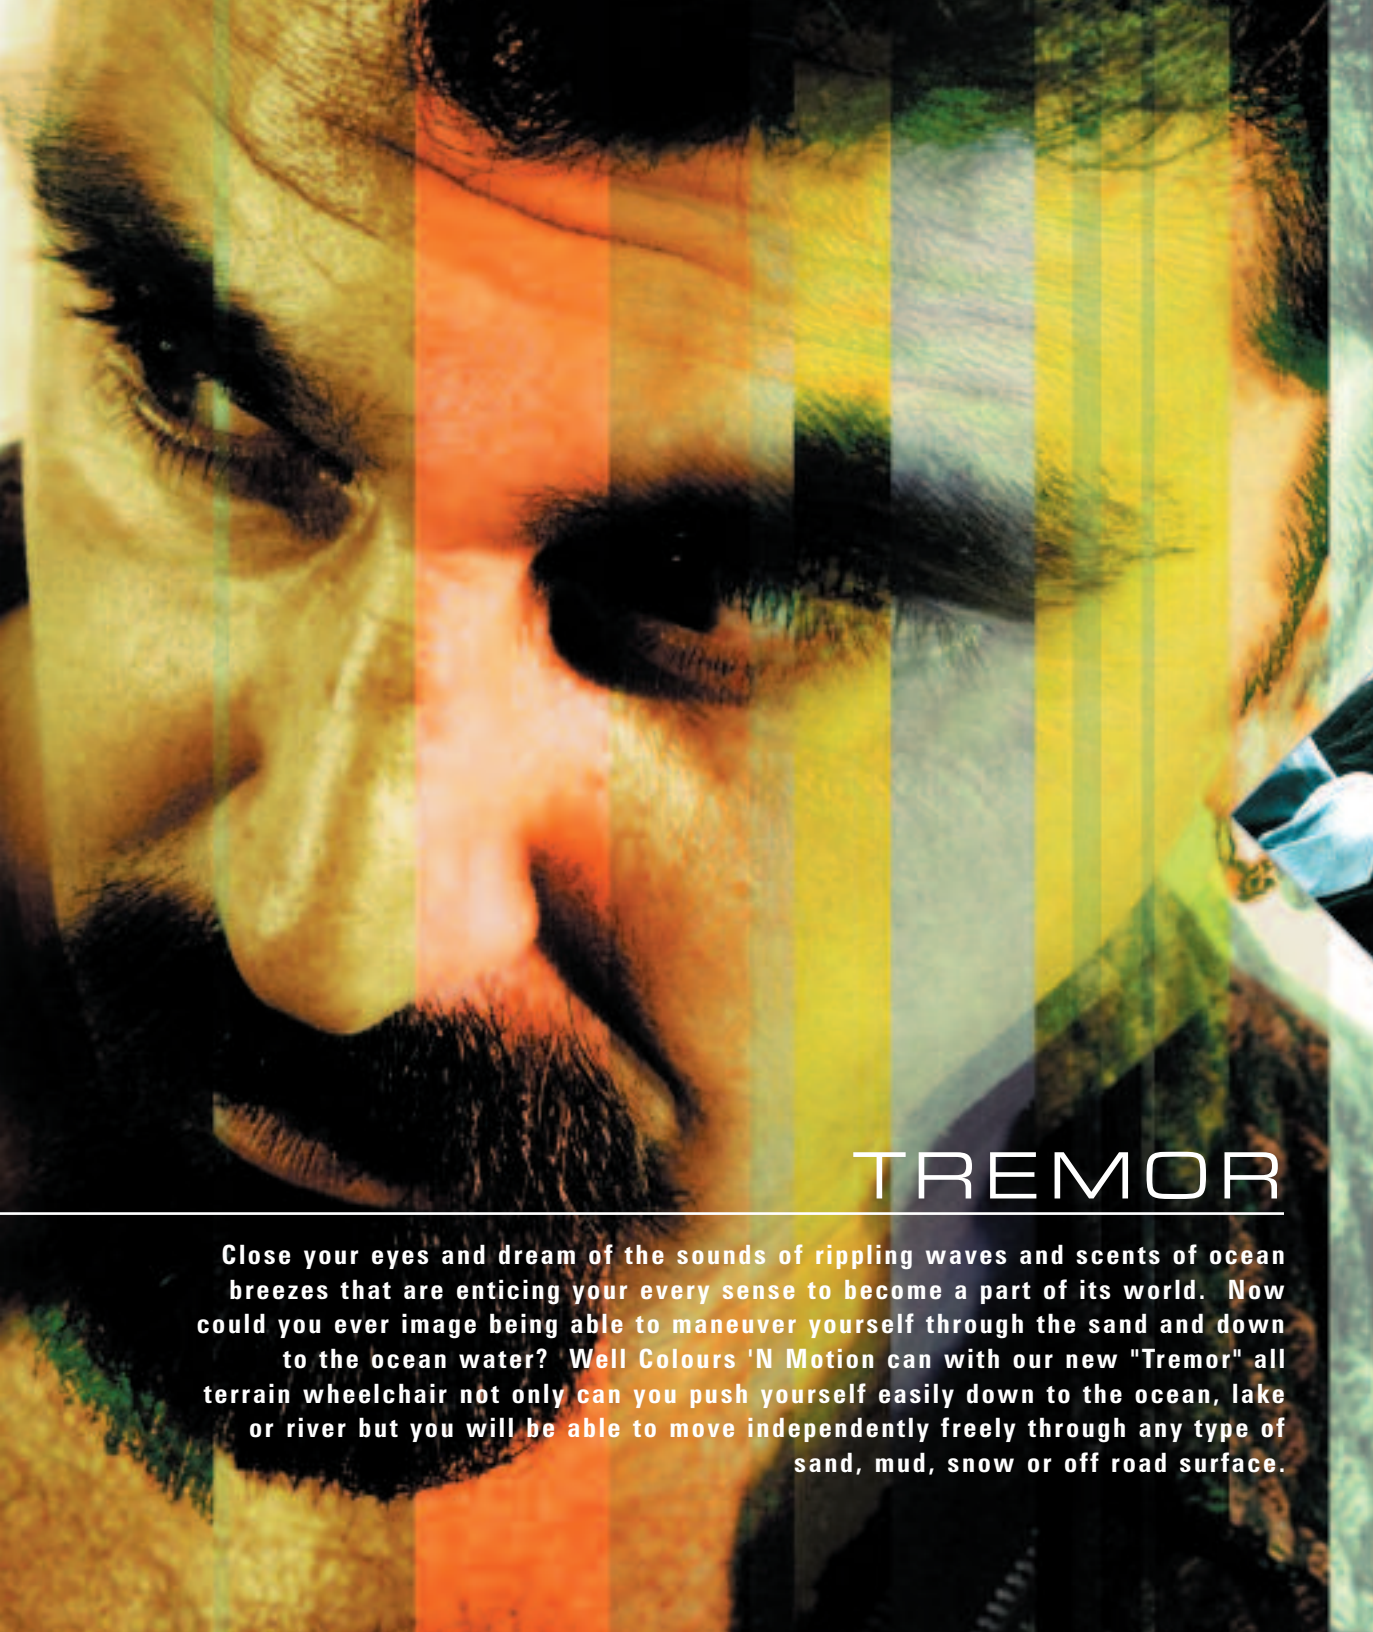

**At last a design that unifies the chair and body! The "X-treme" is designed with this concept in mind. In any sport, especially tennis, you want your chair to be as responsive as possible. The "X-treme" will enhance your every move. Just get strapped into one and you will know what we mean. The "X-treme" promotes the agility and response that any level tennis player needs to perform to the best of their abilities.**

## Xtreme-Pro

*The positioning of your wheelchair is the last thing you need to worry about during that crucial point on the court. The "Xtreme-Pro" takes you to that next level of competition! Colours 'N Motion developed the "Xtreme-Pro" especially for the serious tennis player that believes having the perfectly fitted wheelchair will give them that extra edge to win the match. Perfect Fit- Less Worries. By having increased rigidity the "Xtreme-Pro" has less flex and movement, which equates to you, less wasted physical energy. It comes with a few added features such as welded rigid side guards and custom camber settings more than 20 degrees built right into the frame. So if you are looking for the one of the lightest totally custom three wheelers on the market today, you will find it in the "Xtreme-Pro".*

## TREMOR

Close your eyes and dream of the sounds of rippling waves and scents of ocean breezes that are enticing your every sense to become a part of its world. Now could you ever image being able to maneuver yourself through the sand and down to the ocean water? Well Colours 'N Motion can with our new "Tremor" all terrain wheelchair not only can you push yourself easily down to the ocean, lake or river but you will be able to move independently freely through any type of sand, mud, snow or off road surface.

### All Terrain, All Weather

With the "Tremor's" stylish new frame design and our custom "Fatso" rear wheel assembly you will look good in any all terrain setting you choose. Once again Colours 'N Motion has made some of life's simplest pleasures like going down to the ocean or traveling through the snow fully independent for wheelchair users. So go ahead! If you love to camp, go to the beach or be in the snow, the "Tremor" wheelchair will take you where you want to go.

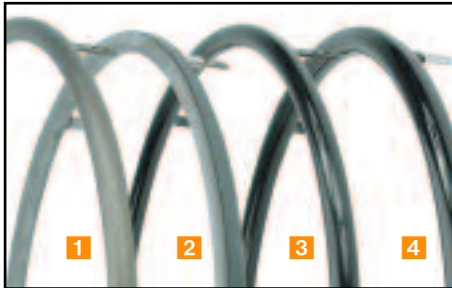

### Beach Umbrella Not Included

Most wheelchair users in the past need assistance or struggled maneuvering at the beach, desert or on trails. With regular manual wheelchairs it felt like pushing through quick sand. Yet with the Colours 'N Motion "Tremor" you will feel like you are pushing down the beach boardwalk or paved mountain roads. With the rugged "ultra-lightweight" wheelchair frame, large custom rear "Fatso" wheels and total wheelchair adjustability this wheelchair can make life incredibly more enjoyable when you are traveling on any all terrain surface.

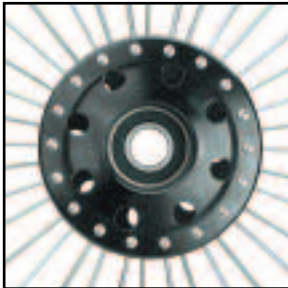

# ACCESSORIES

swing way design for those  
getting right out of rehab  
- padded tires

Colours warrants all rigid hardware (welded parts, machined mounts and brackets) for the lifetime of the originally registered owner. In the event an item is discontinued, it is the owners responsibility to replace or change the rigid hardware.

The front wheels and rear tires are warranted against defects and workmanship for a period of ninety (90) days from the day of delivery.

Other parts and equipment are warranted for a period of one (1) year from the day of delivery, against defects in material and workmanship.

Colours will have the right, on all claims, to require that all parts be shipped, prepaid to Colours, by the claimant, for replacement or repair. In the event that the parts are found to be defective, Colours will determine whether the parts will be replaced, repaired or if a credit shall be issued. This warranty does not include costs for transportation, shipping or labor for removal or reinstallation. Colours will invoice for any expenses incurred if it is determined that the part or parts are found not to be defective or otherwise not found to be defective under the terms of this warranty.

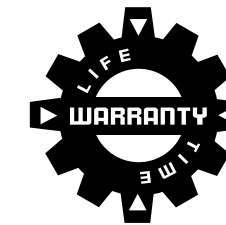

Notwithstanding the above limited warranty, Colours will have no liability whatsoever, if any defect in a product is found to have resulted from improper storage, use, or service of the component. If Colours opinion is that any components have been installed incorrectly, misused or stored improperly, no warranty obligation will be available to the claimant.

Colours does not warrant the merchantability or fitness for any particular purpose of its components and does not make any warranty, express or implied, other than the limited warranty contained herein.

In the event a warranty issue arises, Colours advises you to first contact your authorized Colours dealer, to provide available solutions to the problem.

This warranty is valid only for the originally registered owner.

Except where prohibited by law, this limited warranty represents the total agreement between you and Colours for any liability that may arise from a Colours manufactured component.
