

# COTeL MOBILE VoIPSTICK™

## PORTABLE VOICE OVER IP DEVICE DESIGNED FOR UNPARALLELED, LOW-COST GLOBAL COMMUNICATIONS

The VoIPStick™ inserts into a USB port on your laptop or desktop and utilizes the Internet to connect you to friends and business associates.

Dramatically reduce your phone bills with this advanced, cost-effective, highly portable VoIP solution.

The VoIPStick™ includes exclusive features such as an industry-leading Plantronics® M60 headset, 50MB of file storage, and innovative Plug-and-Play VoIP software that sets a new standard in VoIP ease of use.

A vast array of high quality optional accessories, such as travel cases and upgraded Plantronics® headsets, are available wherever VoiceStick™s are sold

### Cost Effective Alternative to Traditional and Cellular Carriers

The VoIPStick™ is the easiest and most cost effective VoIP solution for college students, business travelers, or anyone who makes long distance calls from multiple locations

### Unlimited Global Portability

Given the explosive growth of WiFi and broadband wireless, including 'Hot Spots' the VoIPStick™ will allow users to conveniently make VoIP calls from such locations as cafés, hotels, airport terminals, college campuses, municipal parks, and their own back yards.

### The World's Easiest to Use, Plug-and-Play VoIP Enabler

The VoIPStick™ represents a new class in VoIP ease of use, through its unparalleled mobility and Plug-and-Play operation. Users simply insert, connect and talk.

### Benefits

- Complete low-cost, high-quality VoIP solution: includes hardware, software, service and support
- World-Class ease of use
- Less expensive than traditional and cellular telephone services
- Unlimited FREE calling to all other COTeL Subscribers
