

Lying off the coast of Key West is a beautiful and secluded tropical island.

Here turquoise blue water gently caresses a spacious white sandy beach. Palm trees sway to the rhythm of the Caribbean beat. Gardens burst forth in colors only Monet could capture. And the sunsets literally take your breath away.

Located just 500 yards from historic Old Town Key West, Sunset Key is accessible only by 24-hour daily launch service from the Hilton Key West Resort & Marina.

Nestled amid this tropical paradise are luxurious one, two and three bedroom cottages, each designed in traditional Key West architecture and offering magnificent beachfront, ocean or garden views. Every detail of the cottages captures tranquility and charm, from the pastel-colored wood finishes to the authentic Victorian-style tin roofs.

Interiors have been impeccably appointed, combining colorful “Caribbean Island” touches with comfortable “Old Florida” furnishings. Standard amenities include cable television, CD players, VCR, iron and ironing board. Each cottage has a living room, dining area, and an equipped kitchen that is pre-stocked with selected food and beverage items.

Bedrooms are tastefully furnished, spacious and serene. Each has a large colorfully tiled private bath with hair dryer, tropical bath essentials and luxurious bathrobes. Daily maid and turndown service is provided.

Spacious wrap-around verandas — with Adirondack chairs — are the perfect location to sip a glass of champagne or enjoy your complimentary breakfast basket and newspaper delivered each morning.
