### How does it work?

Thailand Traveler is the only Hotel booking system on the Internet which allows you to create a personalized Hotel Plan for your Holiday in Thailand. You can choose among a multitude of Hotels by category, by discounted rates or by diversified seasonal promotions (Special Offers) the whole year around. You can add and remove any Hotel, change a room category or a booking period, according to your travel needs, anytime until you get your Travel Budget and our Instant Quotation done!

**With Thailand Traveler you can accumulate promotions!** The more Hotels & Resorts you add to your Hotel Plan the more discounts you can get.

### How do I get started?

**It's user friendly!** You can start from our homepage ( [home](#) ), "select a destination", "choose your own promotion" or "search" for a Hotel (you heard of) by name, by price range or by promotion with a more selective search. Thailand Traveler's search engines always give you a result.

### Step 1: Choose a Hotel, select a room & check rates

Once you find a hotel you can select one, or more, available room's category at the same time, verify your hotel **check-in** (arrival) and **check-out** (departure) **dates** in the list menu, and then click "**check rates**" to get a more precise quotation. All our published rates are constantly up to date; Thailand Traveler always shows you the daily rates (today rates) per room per night, both in our home or Hotel page display. All published rates are inclusive of Tax and Hotel Service Charges. There are no administration fees.
