# Which Schools have CanDoEDU.com?

## Schools like yours.

**Automated administration is no longer a luxury. It's a necessary and affordable tool.**

CanDoEDU.com places all your teaching administrative tasks in one location – on your computer desktop – available through a secure web-based login, accessible anywhere from any Internet-connected computer. Since it's web-based, you won't need to install software, saving your time and hard drive space. You'll never have to upgrade, either. We handle that for you behind the scenes. Simply subscribe on a monthly or annual basis and you're up-and-running. There are no costly commitments.

Import your existing data from your current administrative software and export into standard file formats including Excel spreadsheets, tab or comma-delineated text files. CanDoEDU.com supports intuitive reporting and charting of student progress, attendance, compliance benchmarking and more. So you stay focused, can visualize where progress occurred and diagnose what areas need attention. Know precisely where students, classrooms and districts measure-up.

Plus teacher and student benchmark compliance is faster and easier. Student data automatically compares aside real-time standards metrics including those required by No Child Left Behind.

Stop working in the dark, and use your time coaching, assisting and educating students.

# Which Schools Evaluate With CanDoEDU.com?

# Schools like yours.

## Three simple modules guide all of your tasks:

## Assessment.

In the Assessment Module, you can import extensive math, reading and language arts testing content. This is where you can also analyze test results, produce instant reports, customize item development, test development, standards alignment and statistical correlation.

Enter grades once and they automatically populate progress reports. CanDoEDU.com also lets you choose how to grade – through averaging, summation, extra credit, overrides, alpha or numeric or other methods.

## Achievement.

In the Achievement Module, you can guide curriculum and instruction on state and local standards. Districts and individual schools can update policies or benchmarks, instantly populating teacher grading scales. Login and manage your classroom, courses, instruction, standards, time and tasks.

All your administrative tools are in one location – from your grade book and lesson planner, to your standards wizard and task manager. You can even work from home or anywhere with Internet access, or manage access for others – simultaneously.

## Accountability.

In the Accountability Module, you can track annual progress at the district, school, teacher and student level through data disaggregation. The Accountability Module is built on Data Warehouse Technology, offering advanced analytical tools and robust reporting.

CanDoEDU.com simplifies compliance with State and Federal guidelines including the No Child Left Behind Act. Teachers can even allow parents or guardians limited access to monitor their child's progress – from grades to attendance – all in real-time.

## Other Benefits:

- **Work from home or anywhere with Internet connectivity – anytime**
- **Receive help-desk support at your convenience**
- **Avoid expensive software to purchase and installation**
- **Bypass commitments with low monthly or annual subscriptions**
- **Get solution customization to meet your expectations**
- **Involve parents and guardians in student progress to boost support from home**
