

# Lizard Safeguard

Complete PDF Document Security and Digital Rights Management

**Protect your PDF documents from unauthorized copying, printing and distribution. Control how they are used, by whom, for how long and when.**

Lizard Safeguard ensures complete PDF security with full licensing and document management control.

## Safeguard your company's revenue stream.

**Reach new markets and effortlessly gain additional revenues.**

Lizard Safeguard was made specifically for publishers of high value information published in PDF format.

It protects your PDF research documents and reports from unauthorized copying, sharing, modifying, printing (including how many times), and saving, with US Government strength encryption and Digital Rights Management.

Control who views your PDF documents where, when, and for how long (days, months, years or forever).

Revoke document access in real-time even after distribution. Maintain copyright at all times.

## Subscription Services

If you sell subscription services, Safeguard's unique concept of publications ensures minimum administration overheads and enables you to effortlessly manage your customer base.

When a subscription license expires your subscriber will have to renew it before they can continue using your documents. You therefore retain full control over your documents at every stage and ensure customers continue to pay license fees when they are due.

## Easy to use

Just right-click on your PDF documents in Windows Explorer to protect them by selecting secure document access rights from the pop-up dialog box. A simple to use web-based administration system lets you control customer access to your secured PDF documents.

## Complete Document Security

Lizard Safeguard ensures the best security for your PDF documents.

Unlike weak and unmanageable password mechanisms Lizard Safeguard uses public key technology with strong AES 256 bit encryption and a real-time web based licensing system.

The screenshot shows a window titled "Secure PDF document" with a close button (X). Inside, there's a section for "PDF Document Rights" with the instruction "Check the boxes if you want to enable these features". The options are:  Print,  Degraded printing,  Limit number of copies to [text box],  Copy contents,  Fill-in forms\*,  Modify contents\*,  Assembly\*, and  Modify annotations\*. A note states: "Note: Enabling features marked with (\*) will automatically allow saving a copy of the document in PDF format." Below this is a "Splash screen:" field with a "Browse" button. The "Access denied message:" field contains the text: "You are not authorized to view this protected document. Please purchase this from [www.mycompanyname.com](http://www.mycompanyname.com) or contact [sales@mycompanyname.com](mailto:sales@mycompanyname.com) for more information". At the bottom are "OK" and "Cancel" buttons, and the version number "version 2.0.17".

Diagram 1 : Document Rights

The screenshot shows the "Lizard Safeguard Publisher Account Administration" web interface. It features a navigation menu on the left with links: "Show customer accounts", "Create customer account", "Import customer accounts", "Search customer accounts", "Manage publications", "Manage documents", and "Set support email address". The main content area is titled "Publisher account: Brian Gibbs" and "Create customer account". It contains form fields for: Name (Peter Ratcliffe), E-mail (sales@locklizard.com), Start date (02-11-2005), Valid until (02-11-2005), and Company (LockLizard). There are radio buttons for "unlimited" and "Leverage World", and a checked checkbox for "MyPublications". An "Add customer" button is at the bottom right. The footer includes "ABOUT SUPPORT" and "2004 © LockLizard Ltd. All rights reserved."

## Benefits

**Gain additional revenues.** Customers now have to buy whereas previously they may have obtained your content for free.

**Reach new markets.** Sell documents that are accessible for a limited time period at a lower cost, rather than being available forever, enabling you to reach new markets that are price sensitive.

**Reduce the cost of distributing confidential information.** This can now be done electronically since you are always in control of who can view your documents and what they can do with them. Now you have the convenience and cost savings of online business processes with more secure and reliable electronic document exchange.

**Ensure greater compliance with government privacy regulations for electronically distributed information**

**Complete control over your IPR.** Achieve full control over how your licensed documents are used. Ensure your documents are not printed, copied, shared or modified without your permission. Revoke documents when you decide they should no longer be available. Copyright and trade secrets are always maintained.

**Simple method for controlling access to and use of commercial and confidential documents**

## Features overview

- Complete and secure control over PDF document usage - viewing, printing (+ no. of times), copying, saving, etc.
- Disables Windows print screen, copying, modifying and saving in unprotected mode by default
- Enforce document viewing in full screen mode
- Customer expiry - you decide how long your customers can view your PDF documents
