Portable Personal
Transportation

*Fits easily inside small
7-foot-wide horse trailer!*

Weights only 170 pounds!

Folds down to 28 inches high!

(See other side for details.)

It's true. Great things do come in small packages.

The totally-new, totally-electric
CRICKET ESV is the perfect blend of
form and function. It is easy to handle,
easy to stow inside almost any larger
vehicle, and it can even easily be
carried in a lightweight rear plat-form
on most small campers, pickups, and
SUVs. (See other side for examples.)

From professionals and amateurs in
the horse industry, to motor-home
travelers, to vacation campers, to
active retirees, and most everyone in-
between... Almost anyone who needs
trustworthy mobility wherever they
go will love the all-new **CRICKET ESV**.

The All New

CRICKET^{esv}

CRICKET loads easily into underbelly storage area of larger motor homes.

The nimble **CRICKET** Electric Sports Vehicle loads quickly and safely onto rear-bumper carriers.

CRICKET can carry all kinds of "stuff" with ease, no matter where you go.

It's a snap to roll or drive **CRICKET** into small 7-foot wide horse trailers. (Shown loading through 34-inch rear door entrance.)

CRICKET is a trim 32 inches wide, which means it can fit into a lot of tight spaces.

CRICKET easily folds down to only 28 inches tall—or maybe it's more correct to say "28 inches short." (Shown inside slant-load 7-foot-wide horse trailer.)
