

# The New SONIS-OC

Gives You

## Command Performance!

The new SONIS-OC lets you bring the inside, out...with total command and complete protection of electronic components and controls that until now had to remain within your home. Your choice of sophisticated electronics can be as unique and individual as you are.

The SONIS-OC, designed by AFV Concepts, is virtually indestructible. Engineered with a rolled steel, armor-like shell, the SONIS stands 42" tall, when closed. And, when the pod-like SONIS-OC is closed, it provides a totally weather-resistant and tamperproof environment for your personalized selection of electronics.

### SONIS-OC

and Uniden Mariner Cordless Phone.

# SONIS-OC...

## lets you take it outdoors!

With a simple command the turret of the SONIS-OC ascends from its base to display your personal choice of electronics that enable you to control much of your surrounding outdoor environment. With an effortless stroke to the screen or keypad, you can light your pool or patio areas, set the mood with music, activate an electronic perimeter guard around your property, and ... view and greet arriving guests from the remote location of your veranda. All with your choice of electronics, all at your fingertips, and all enclosed within the new SONIS-OC.

# SONIS-OC...

## stands tall on performance!

- The OC provides 110AC for your system components and electronics in a maintenance-free, virtually indestructible pod.
- A simple touch of a button, or a signal from a handheld proximity reader, opens and closes the OC, on command. *The remote control is available as an optional feature.*
- The SONIS-OC automatically rises to an optimum height for touchscreen, keypad, or selected electronics viewing.
- The exclusive Weather Guard™ System in the OC senses weather changes and closes the pod automatically with the first drops of rain or snow.
- The integrated heating system and optional cooling system within the OC maintains an optimum operating temperature range giving you assured, all-season, protection to your investment of highly sensitive electronics.
- The SONIS-OC is available in a stainless steel finish or several textured finishes that blend in with any outdoor setting. Custom color matching is optional.

Take the home entertainment and electronics controls from the inside of your home to the outside, and enjoy the added freedom and flexibility of Command Performance with the new, remote access, SONIS-OC.
