

# *Let A NEW WOMAN Rise*

I am Isis! I am Inzinga! I am strong, complete

I walk Earth, clothed in my African Glory.

Warrior Woman Soul

I survived the African Holocaust. That the wonder.

Truth And majesty of my ancestors be told.

I am Harriet! Sojourner! Rosa! Betty! Winnie!

Black! Royal! Proud! Serious and Brave!

On a mission called Freedom. Called Justice.

Willing to fight. To die to unify that posterity be saved.

Never more enslaved by any!

I am African Female my spirituality, reality in tact.

The power of the Most High propels me, tells me

It's a time to stand up! There's no turning back.

We are Nubian Sisters, Warriors. No more getting off track.

We're on our way Black!

Praying, fasting, meditating, marching in our

Royal African Glory. Warrior Women's Souls.

---

We legislate the future, we are Holy Ghost Bold!

We will the minds of our babies back

Behold a New Woman!
