Baxter

Baxter is a whole new kind of Personal Digital Assistant, its a Personal DISC Assistant!

Baxter is a fully automatic disc handling system that automates many everyday tasks. When you want more out of a copier than copying, Baxter is up for the task. With it you can:

- ► **Duplicate** CDs and DVDs
- ► **Back-up** your hard drive seamlessly
- ► **Rip** your entire CD collection to MP3 / WMA
- ► **Archive** CD / DVD Images. Take a snapshot of a CD or DVD and produce copy of it whenever needed.
- ► Write your own applications with Baxter's **SDK** (Software Developer Kit)

Connect a single USB 2.0 cable and install the included software suite and Baxter is ready to serve you.

Copier
Enjoy unattended copying of virtually any CD and DVD, or create discs from files.

Back-up Device
Are you tired of shuffling tapes or discs when backing-up your PC or server? Use Baxter to backup and restore selected files, folders, or drives.

Rip CDs to MP3
Load up your audio CDs and let Baxter rip them to Mp3 or WMA files. Get disc, artist, and genre information from the Internet to create file names and generate ID3 tags.
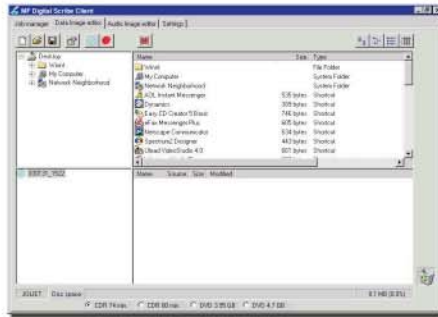

...And more

CD & DVD Copying

Baxter comes with MF Digital's award winning Scribe CD / DVD Copying and authoring software.

- Relay Mode allows you to copy sets of masters. Just stack up a master, the desired number of blanks, another master, and so on.
- Copy any master disc, or pre-master DATA, Audio, and DVD-Video discs from files on your PC or network.
- Audio discs may be pre-mastered from WAV or MP3 files. UPC. ISRC, and subindex support.
- Network Client. Any Scribe can be a shared resource. FIFO queue allows multiple users to submit jobs to the Scribe from their purchase.
- Make a playable DVD Video disc from a VIDEO_TS folder. No need for a master disc.
