College Sports Careers Reaches Milestone
College Sports Job Board Registers 3,000th Member

Rancho Cordova, CA -- College Sports Careers (www.CollegeSportsCareers.com), the fastest growing job board for college athletics has recently registered its 3,000th member. In existence since August of 2004, College Sports Careers has established itself, in only 10 months, as the premier job board for college sports.

The President and founder of College Sports Careers, Geoffrey Sakala said, "this web site gives job seekers an easy to use, centralized location to find careers, internships, and part-time jobs in college athletics. Career seekers are flocking to our web site because they can search for and apply to jobs in their pajamas. "It's a powerful new way to land a career in athletics," said Sakala.

College Sports Careers offers career seekers a searchable database of jobs in college athletics and the ability to post a resume online. College athletic departments can post careers, search resumes, and compose an online profile of their athletic department and university for passive career seekers.
