Launch a fully capable corporate learning portal with hundreds of pre-loaded course offerings, for less than $10,000.

Corporate University - Today provides a web-based learning portal, learning management system and content development environment enabling easy access both to in-house courses and courses from leading content providers. *Corporate University - Today* leverages the capabilities of our flagship advanced distributed learning platform, KMx Enterprise, delivered as a hosted service in partnership with Onvix, one of the world's leading web presence providers. Pre-loaded with hundreds of courses from SkillSoft, the world's largest and most experienced e-Learning company, *Corporate University - Today* is designed to meet the career development needs of staff, education of partners and suppliers, as well as provide training for consumers and support personnel. Visit **http://www.beducated.com** for a free preview and demonstration.

SkillSoft AUTHORIZED PARTNER

SkillSoft's Business Skills Library focuses on behavioral skills that are designed for business professionals and key to performance regardless of job responsibility. SkillSoft's Technology Skills Library provides learning programs designed in partnership with software vendors that provide training and support for every stage of the IT learning curve.

Online, offline or classroom
Courses can consist of any combination of self-study material and instructor-led activities. Learning activities are both synchronous and asynchronous and provide for a virtual-classroom experience. In addition to the capabilities of KMx and access to a world-class library of online courses, *Corporate University - Today* provides the following features:
- Custom site with your organization's branding and graphics
- Volume discounts and subscription pricing programs
- Reporting features to track student skills acquisition
- Administrative features to monitor student activity and participation
- Post-assessments to validate skill transfer and training investment
