## OCEAN AIR FRESHNESS SOAPS

the essence of well-being inspired by the open sea

True to its passion for the sea and for the richness captured in natural marine ingredients, Omaré has created 2 new body soaps inspired by the vast expanses and infinite horizons of the world's oceans and the spirit of independence and well-being they embody.

**OCEAN SCRUBBING SOAP:** Green tea leaves and fucus & lithothamnium algae provide mild exfoliating action while its refreshing ice mint fragrance revitalises the senses. It can be used once daily or every other day (depending on skin sensitivity) employing gentle repetitive circular movements to gently remove dead skin cells.

**SAVON CORPOREL FRAÎCHEUR OCÉAN:** Whether you prefer relaxing baths or invigorating showers, Ocean Fresh Body Soap's laminaria & spirulina algae extracts, shea butter and light, airy fragrance will make the experience a uniquely refreshing one for your mind as well as your body. It is the ideal choice to accompany Omaré body contour treatment programmes.

The Ocean, Omaré and You . . . made for one another
