

Lite-A-Switch

Exciting New LED Nightlight Technology

- Reduce trips & falls. Inadequate lighting is the 6th leading cause of accidents in the home.
- NSC (National Safety Council) recommends products like Lite-A-Switch for those over 50.
- Easy to install and attaches to most existing fixtures.
- LED technology can last up to 10 years. Uses no space and requires no maintenance.

Wall plate solution

Never come home to a dark house again!

Lite-A-Switch, the best nightlight solution for homes, attaches securely to any existing light switch or outlet plate in just minutes, making it kid friendly and adult convenient. Lite-A-Switch utilizes the newest 10 year LED technology and provides the essential light needed to prevent stumbling and falls in the night. Kids will love the fun and safe light of the Lite-A-Switch in their bedrooms. The practical and stylish new way to illuminate any room! Install a Lite-A-Switch anywhere you have a light switch or outlet.
