

INTERACTIVE CE BROADCAST via Satellite, Internet, or Telephone

Premiere Date:

Wednesday, November 9, 2005

LIVE Broadcast: 12:00 p.m.–1:00 p.m. ET

11:00 a.m.–12:00 p.m. CT

10:00 a.m.–11:00 a.m. MT

9:00 a.m.–10:00 a.m. PT

Taped Re-Air: 3:00 p.m.–4:00 p.m. ET

2:00 p.m.–3:00 p.m. CT

1:00 p.m.–2:00 p.m. MT

12:00 p.m.–1:00 p.m. PT

No Satellite? No Problem!

View on the web at www.psychcme.net

Participate via **psychCME TV byPHONE**

800.579.2540 (LIVE)

800.839.2398 (archive)

This activity offers CE credit for:

- Physicians (CME)
- Nurses (CNE)
- Psychologists (CEP)
- Social Workers (NASW)
- Case Managers (CCMC)
- Pharmacists (CPE)

FACULTY

Jeffrey A. Lieberman, MD

Chairman, Department of Psychiatry
College of Physicians and Surgeons, Columbia University
Director, New York State Psychiatric Institute
Director, Lieber Center for Schizophrenia Research
Psychiatrist-in-Chief at New York Presbyterian Hospital
& Columbia University Medical Center
New York, NY

Zafar Sharif, MD

Assistant Professor of Clinical Psychiatry
Director of the Clinical Trial Program
Department of Psychiatry
College of Physicians and Surgeons, Columbia University
New York, NY

psychCME Chair and Moderator

Prakash S. Masand, MD

Consulting Professor of Psychiatry
Duke University Medical Center
Durham, NC

Making Real-World Treatment Decisions About Schizophrenia: The CATIE Trial

Statement of Need

Schizophrenia is a severe, debilitating mental illness, complicated by the challenge of achieving treatment efficacy and compliance. The Clinical Antipsychotic Trials of Intervention Effectiveness (CATIE) trial was designed so that researchers could gain important information about long-term outcomes and cost-effectiveness of a number of medications already used to treat schizophrenia. CATIE was launched in 2000, and is a double-blind, randomized comparison of atypical antipsychotics with each other and with a conventional antipsychotic, perphenazine. It is considered a 'practical' clinical trial because participants were recruited from the community at large and because the interventions tested are already in widespread use. Patients were followed for 18 months in each phase (Phase 1-3); if at any time during the trial an assigned medication was ineffective or not well tolerated, patients were re-randomized to other treatment pathways. Data collection in the study was completed in December 2004 and data analyses are being carried out through 2005.

In this landmark psychCME TV activity, CATIE researchers will review the Phase I data and explain how these data can be interpreted so clinicians can make evidence-based decisions about treating patients with schizophrenia.

Activity Goal

To provide current and clinically relevant data about the efficacy and cost-effectiveness of a variety of different antipsychotics used to treat schizophrenia.

Learning Objectives

At the end of this CE activity, participants should be able to:

- Assess the evidence for the efficacy of the different treatment options in the CATIE trial.
- Utilize evidence-based judgment to assess the tolerability profile of different treatments in the CATIE trial.
- Recognize the clinical merit of trials that include participants who reflect a wide range of disease states and phenomenology.

Target Audience

Physicians, physician assistants, nurse practitioners, nurses, psychologists, social workers, certified case managers, pharmacists, and other healthcare professionals with an interest in mental health.

Commercial Support

CME Outfitters, LLC, gratefully acknowledges an educational grant from Pfizer Inc. in support of this CE activity.

Credit Information

CME Credit (Physicians): CME Outfitters, LLC, is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CME Outfitters, LLC, designates this educational activity for a maximum of 1.0 category 1 credits toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the activity.

Note to Physician Assistants: AAPA accepts Category I credit from AOACCME, Prescribed credit from AAFP, and AMA Category I CME credit for the PRA from organizations accredited by ACCME.

CNE Credit (Nurses): This Educational Activity is presented by CME Outfitters, LLC, which has been approved as a provider of continuing education by the New York State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. It has been assigned code 5UYSJZ-PRV-0460. 1.2 contact hours (Pharmacology)

CEP Credit (Psychologists): CME Outfitters, LLC, is approved by the American Psychological Association to offer continuing education for psychologists. CME Outfitters, LLC, maintains responsibility for the program. 1.0 CE credits

NASW Credit (Social Workers): This program was approved by the National Association of Social Workers (provider #886407722) for 1 continuing education contact hour.

CCMC Credit (Certified Case Managers): This program has been approved for 1 hour by the Commission for Case Manager Certification (CCMC).

CPE Credit (Pharmacists): CME Outfitters, LLC, is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

1.0 contact hours (0.1 CEUs)

Universal Program Number:

376-999-05-015-L01 (live presentation)

376-999-05-015-H01 (recorded programs)

To receive credit, participants must review all activity materials in their entirety, score 70% or above on a post-test, and fully complete and return both the credit request form and activity evaluation. A certificate or statement of credit will be mailed within 4-6 weeks to all who successfully complete these requirements.

FAX completed form to 240.243.1033
