### This ultraviolet air purifier is loaded with features:

- The highest amount of UV-C germicidal protection in a ultraviolet room air purifier.
- Dual high speed fans for excellent air circulation.
- Snapcat air oxidation for cooking odors, tobacco odors, musty odors, & pet odors.
- Washable electrostatic air filter for pollen and other particles like dust.
- Unique plated air ducting system for maximum UV air sterilization.
- Microprocessor controlled UV air sterilization for the proper dose of ultraviolet light always.
- Automatic restarting UV lamps eliminates the need to reset power.
- Programmed UV lamp starting means extended lamp life.
- EOL protection to safely remove power from UV lamps as they near end of life.
- Thermal protection in case of power surges to protect from microprocessor damage or fire.
- Regulated power supply operates above 42kHz to minimize infrared interference.
- Air purifiers have wheels for easy mobility.
- UV lamp & filter changes require a phillips screwdriver, keeps kids out.
- UV-C light sealed inside of air ducting, protecting you from UV rays.
- Operates on household voltage, just plug it in.
- Uses less electricity than a single light bulb.
- Front of unit features decorative bronzed aluminum for a classic look.
- One year warranty on UV lamp life.
- Manufactured by CaluTech in the United States.

Has TWO double  
tube 16.5" UV-C  
lamps - lots of  
UV sterilization!

It's not a silent  
air purifier, it's  
an air purifier  
that really works.
