

Solutions for the Business
Side of
Information Technology

The P2C2 Group, Inc.

**Introducing the
P2C2 Group, Inc.**

We see each customer as a unique entity and consistently provide you with accomplished professionals who have the experience and judgment to create solutions that are best suited to your organizational needs.

By providing senior experts for the business side of federal technology, we enable you to go beyond the cookie-cutter services that are offered by other firms. The P2C2 team works to enable you to address your most demanding challenges and deadlines.

Leveraging the Value of Our Services

We tailor our services and methods to give you solutions that are innovative and reliable. What's more, we are team players who empower your people to be part of the solution and to leverage the value of their ongoing efforts.

The P2C2 Group gives you something you don't often see: A savvy team of experts who are mission-driven and committed to successful outcomes for your projects and programs. Our team is dedicated to helping you in the areas of:

- **Mission-Critical Business Deliverables**
- **Independent Reviews, Analysis, and Assessments**
- **Performance Management Support**

Services to Meet Your Needs

Mission-Critical Business Deliverables

Independent Reviews, Analysis, and Assessments

Performance Management Support

Mission Critical Business Deliverables—We prepare high-visibility documents that are suitable for agency leadership and federal oversight agencies such as OMB and GAO. We seek a consensus among stakeholders and gain broad support. We shape your deliverables to achieve compliance with legislative and oversight requirements. But we also develop them as practical management tools that you can use to achieve results. Areas of expertise include:

- Business Cases and Exhibit 300s
- Program / Project Management Plans
- Alternatives and Cost Benefits Analysis Reports
- Acquisition Strategies and Performance Work Statements
- Information Security Documentation
- Full SDLC Planning Support for New Initiatives
- Strategic Plans and Annual Reports

Services to Meet Your Needs

Mission-Critical Business Deliverables

Independent Reviews, Analysis, and Assessments

Performance Management Support

Independent Review, Analysis, and Assessments—The P2C2 team brings to your organization the perspective gained from successful experience in many different federal agencies. We bring the disciplines, independent judgment and professional standards necessary to conduct:

- Independent business case reviews and scoring for Exhibit 300s
- EVMS, operational analysis, and e-Gov reviews
- Enterprise architecture assessments
- Performance reviews and program assessments
- Market research and independent cost estimates
- Budget analysis
- Customer satisfaction surveys
- Design and analysis of performance metrics

Services to Meet Your Needs

Mission-Critical Business Deliverables

Independent Reviews, Analysis, and Assessments

Performance Management Support

Performance Management Support—We roll up our sleeves to help you achieve the results identified in your plans and study recommendations. The high level of expertise and commitment of P2C2 consultants will be an advantage for accelerating performance through our support of:

- CIO Offices
- Program/Project Management Offices
- Training and Change Management
- EVMS Tracking and Corrective Action
- OMB and GAO Data Calls

Real World Success

Many Federal agencies and government contractors work with the P2C2 Group, Inc. to develop management solutions tailored to the business side of information technology. We serve as their partner by delivering a broad range of solutions. Our past performance references are available to document our ability to get your job done.

The P2C2 Group, Inc. is adept in developing collaborative solutions that work in the real world. So it's to your advantage to begin the dialogue with us as soon as possible.

What Customers Are Saying

"Your analytical ability, attention to detail, fortitude, and personal communication skills allowed you to gather information, analyze data, resolved technical conflicts and issues, and prepare high quality statement of work for our technical renovation and test contractors to use. These products were delivered under extremely tight schedules, over a period of eight months".
