

BIO THERM SoftSide FAR Sauna

Collapsible • Ozone Compatible • Portable

FEATURES & BENEFITS

- 360 ° Full Wrap FIR Carbon Heaters-Active heat pad built right in for backside heating
- Silicon bonded wiring for ozone resistance rated to 1000°F
- Emits 100% Gentle FIR in the 4-15 Micron range, peaking at 9.2, same as the human body and the earth
- One Piece Design allows Easy Entry & Exit
- Portable & Collapsible :Folds into its own carrying bag w/ shoulder strap
- Industrial nylon & fiberglass thread & zipper for ozone resistance
- Incorporates New Russian & Byelorussian Sorption Activated Carbon Textile technology, w/proven high absorption of toxins such as mercury, cadmium, flourine, ammonia; Eliminates bacteria, viruses, etc. developed as potable water technology
- Environmentally Friendly-Non-off gasing heat stable industrial silicone adhesives rated to 600°F.
- Marine Grade Faux Croc Leather

- exterior, washable & durable
- Aluminized waterproof interior is fully disinfectable.Heat Rated to 500°F (disinfect between users to prevent disease transmission)
- Includes BioCeramic Silica Ball Massage Pad w/Pillow (Passive FIR emitting silica loess balls are a natural deodorizer & washable)
- Ozone Compatible-Comes ozone-ready for those who want to add the antiaging benefits of activated oxygen inside
- Gentle FIR energy heats you from the inside-out, producing copious amounts of sweat & eliminating toxins
- Breathing fresh air and not toxin & microbe-carrying micronized sweat air prevents lung infections
- Supine (lying on back) position is the body's preferred position for thermal therapy (fever), easier on the cardiovascular system to eject toxins, eliminate pain and stimulate the immune system
- Roomy cut-away design is non-

- claustrophobic or clingy. Regular size fits up to 6 ft.3"/ XL to 7 ft."
- Detachable nylon jaquard neck apron (brown) is fully disinfectible. Extras available upon request.
- UL Safety Certified Air cooled digital controller w/ separate controls for each side, and the pad. Safety Auto-shutoff feature to prevent overheating with falling.
