Discounts:

3-299: -40%
300-499: -50%
500-up: -55%

Credit: Orders over \$50 must be prepaid or send bank and three trade references.

Shipping: Books are best shipped via UPS or USPS Priority Mail. We can ship via truck or Federal Express but do not recommend them for long distances because the rates are considerably higher. Shipping is FOB Nesconset, NY.

Shortages or non-receipt must be reported to us within 30 days of the ship date.

Resale Numbers: New York dealers must mention their resale number with their order.

Orders may be sent to the address below. Telephone orders may be made to 631-979-9046. 9:00 a.m. to 5:00 p.m., Monday through Friday, Eastern Time (or to the answering machine after hours).

Secure online purchases can be ordered through www.cybernetica-book.com at any time.

Return Policy

THIS BOOK IS RETURNABLE. If a title isn't moving in your market, we want to get it back before a new edition makes it obsolete. Thank you for giving it a chance on your valuable shelf space. Our return period is normally between 90 DAYS AND ONE YEAR of the publisher's invoice date; however, we will accept the book for return after one year as long as the edition is still in print.

RETURN PERMISSION MUST BE REQUESTED so that we can issue detailed packing and shipping instructions. This is your authorization and the instructions are below.

NOTICE OF SHORTAGE OR NONRECEIPT must be made within 30 days of shipping/invoice date for domestic shipments, 60 days for foreign.

BOOKS DAMAGED IN TRANSIT are not the responsibility of the publisher. Please make claim to the carrier.

Returns must be accompanied by your packing slip listing QUANTITY, TITLE, AUTHOR, ORIGINAL INVOICE NUMBER and INVOICE DATE. Books returned with this information will be credited with 100% of the invoice price minus shipping. Otherwise it will be assumed that the original discount was 55%. All books should be returned to their original source (for example, the wholesaler).

ROUTING: Ship books via parcel post (book rate) prepaid or UPS prepaid to Arcanum Books, P.O. Box 55, Nesconset, NY 11767

To qualify for a refund, returned books must arrive in good Resalable condition. If they are not now resalable, please don't bother to return them. If you are not willing to package them properly for the return trip, please don't waste your time and postage.

To package the books so that they will survive the trip, we suggest you wrap them the same way they were sent to you. There are two important tips in successful book packaging: Keep them clean and immobilize them.

Place the stacked books in a plastic bag. This will separate the dirty newsprint and greasy peanuts from the book edges and will prevent grip from creeping between the covers. To keep the books from shifting (which causes scuffing), cut a shipping carton to the right size and stuff it tightly with padding.

Since it has been our experience that books shipped loose in oversize Jiffy bags always arrive scuffed, it is now our policy to simply REFUSE them at the post office so that they will be returned to the bookstore. DO NOT USE JIFFY BAGS!

A credit memo will be issued toward future purchases. Industry tells us that it now costs more than \$8 to write a letter. Correspondence, packaging and postage costs a great deal in money and time. Years ago when postage was cheap, it made sense to return slow-moving books. Today, however, many bookstores are finding it far more cost effective to simply mark down the books and move them out.

A new standard for science fiction books...

Two conmen hired in a major investigation. A famous actress marked for corporate assassination. One biologically enhanced bodyguard wrangled by a moral dilemma. In a future where neurological actions, and events, are influenced by a widespread brain-to-computer interface system called *sublimation*, the convergence of these four paths will lead to a reckoning between factions vying for global power.

Welcome to cyberspace...

Thirty-five years after the devastating Encryption Wars, the rise of sublimation from the city of Cybernetica has left a criminal subculture brewing—those who fall outside its technological parameters of control. Now, following the first successful cyber attack in its history, a group of insurgents called the drifters are aiming to destroy and recreate the very civilization it supports. In a world of covert wars, corporate dealings, and government corruptions, there are those who not only hold the fate of the future...but the secrets of the past

Advance Review:

“...Cavallaro’s ideas of a computer-controlled society are intriguing considering today’s rapidly changing world of computer technology...Cybernetica is an exciting and suspenseful way of imagining all of the possibilities of the relationships between humans and computers. His writing is smart and unique. It shows what can happen when humans can’t think for themselves, and gives hope that those free-thinkers who exist will still fight for the freedom of thought.” —*ForeWordreviews.com*
