

# **Brenda Salas**

## *Conservative Republican Leadership for the Inland Empire*

*As Mayor Pro Tem and a City Council member Brenda has fought to protect taxpayers and create good jobs.*

### **Stop Illegal Immigration**

Illegal immigration is just that—illegal. As a member of the California Coalition for Immigration Reform, Brenda opposes efforts to give drivers licenses to illegal immigrants. She believes we should enforce all our immigration laws.

By failing to enforce our immigration laws we have allowed illegal immigration to drain on our State's resources. Those who are here illegally should not be rewarded for their crimes by being given the privileges that come with legal immigration and citizenship.

**Republican  
Primary Election  
June 6, 2006**

*As Regional Co-Chairwoman of the Campaign for Child Safety, Brenda signs the Jessica's Law petition to crack down on child molesters.*

### **Oppose Higher Taxes**

As a member of the Howard Jarvis Taxpayers Association, Brenda has been a staunch opponent of efforts to weaken Proposition 13... and she has fought to eliminate government intervention in the marketplace.

As a City Councilwoman, Brenda Salas helped balance six consecutive budgets. In the Assembly, she will work to root out waste, fraud and mismanagement while standing up to the liberal big spenders.

*Endorsed by County Fire Chief Craig Anthony and District Attorney Mike Ramos, Brenda has made public safety a top priority.*

### **Fight for Families**

As our Assemblywoman, Brenda will protect the sanctity of marriage and the traditional family. As our Assemblywoman, she will push for schools that teach values to our children as well as the basics.

Brenda supports more parental choice and teacher accountability in education...and she believes students should not graduate from high school until they can read, write and speak English.

*From the desk of Brenda Salas...*

Dear friend,

Just like my political hero, Ronald Reagan, I came from a family of Democrats. Once involved in the political process, however, I quickly realized that the Democratic Party is sim-

ply on the wrong side of every single issue that is important to me.

So it was an easy decision to switch my registration to Republican...but I was shocked at the reaction from some.

I was immediately denounced by extremist Democrats for my strong conservative values. But what really surprised me was that a few self-serving Republicans, in order to further their own political careers, joined the liberals in attacking me for switching parties.

Like many of our Inland Empire political leaders, I chose to become a Republican because I believe in less government, traditional family values, ending illegal immigration and cutting taxes.

If we are ever to take California back from the liberals and those who would open our borders, we must join together instead of allowing them to tear us apart. Please join me in the mission of making California a Republican state again.

Sincerely,

*Brenda Salas*

Brenda

## A History of Community Service
