

HOW TO BECOME A HIP HOP PRODUCER

By OD Hunte

© 2006

Introduction

“How do I become a hip hop producer?” This is the most common question that lands in my inbox week after week and considering it for a while, I decided to turn the answer into an eDoc format. I’ve written this so I can not only begin to answer the question but also point the reader in the right direction with a head start.

If you’re like me you want answers in a hurry (like yesterday) without having to read a lot of long-winded information then you won’t be disappointed. This eDoc has been kept to 24 pages. After reading this book you will have gained a head-start on some of your counterparts and will have several avenues to explore to find your destiny as a producer.

Please bear in mind that the opinions stated here are my own opinions and everybody has and is entitled to their own views.
