### Features:

- VacationClick will greatly expand your potential rental market through travel distribution channels used by the major hotel and resort brands.
  - Reach more than 100,000 travel agents worldwide through the Global Distribution Systems (GDSs) used by travel agents to find places for their customer including; SABRE, Galileo and WORLDSPAN.
  - Automatically list your properties on thousands of travel web sites including sites like Expedia, Orbitz, Travelocity & Priceline.
- VacationClick automatically connects via our PMS Link in real-time and seamlessly to your property management system.
  - *Flexible*; select some or all properties to flow seamlessly and in real-time into the distribution channels of your choice.
  - *Single database*; manage availability, property details and rate availability in one place, the property management system you are already using. The PMS Link virtual reservationist in your office updates VacationClick automatically.
  - *Real-time*; automatically receive reservations in your property management system for bookings by travel agents and from travel Internet sites instantaneously via your PMS Link connection.
  - *Authoritative*; your reservation system controls all availability, so properties remain available across all distribution channels for first come - first serve bookings.
- *Customer Service*; VacationClick's call center provides first line support for reservations made by travel agents and directly by guests through VacationClick's web channels. Little effort is required from your staff.
- *Optional services*; special marketing programs can be developed to help your properties get noticed and booked by travel agents and on the web.

### Benefits:

- Greatly expand your market of potential renters. Over 100,000 travel agents are looking for new markets to expand their offering to travelers, our industry was virtually invisible until NOW.
- Reach Internet Portals utilized by millions of travelers and maintain the required property data in just your reservation system.
- Reduce unoccupied properties, increase bookings and total unit revenue by offering properties through VacationClick and reaching a brand new market of potential renters.
  - Fill in gaps during high season
  - Grow occupancy in low season
  - Offer properties at attractive rates to fill last minute cancellations
- *Simple revenue*; you set a rental rate that VacationClick will pay to you each time a rental occurs. You receive full payment prior to guest arrival. (you set the general delivery timetable).
- VacationClick will pay all commissions and fees that are due to agents, Internet sites, and other third party fees... simplifying your accounting.
