

New Ebook Shows Writers And Others How To Join The Web Publishing Revolution

Sydney, NSW (PRWEB) March 12, 2006 – If you have writing talent, and you're working 9 to 5 -- you're crazy. A new ebook, "***Writing For Online Cash: Turn Your Words Into Instant Gold***" helps you to make the most of your writing talent: work when, and where you please. The 100-page ebook writing manual gets you started turning words into cash -- and you don't even need to consider yourself a "writer".

Copywriter and writing teacher Angela Booth says: "If you're a writer – or would like to write for a living, the Internet gives you scope for an unlimited income. Web sites are made up of words, words, and more words. Someone has to write those words, and if you're a writer, or would like to be, you've got it made."

The ebook reveals that as a writer, you've never been more in demand. How much money do you want to make with your writing career? If you want to make a six-figure income, YES, you can, and "***Writing For Online Cash: Turn Your Words Into Instant Gold***" shows you how.

Angela says: "Look at it this way. First came the typewriter, then the computer, and then the Internet. The Internet is the biggie. GOOGLE and the other search engines make your ability to craft words VALUABLE. Everyone online needs someone to write their content. From the smallest one-page Web site, to massive, heavily-trafficked corporate database sites, those sites are built with WORDS."

She suggests that if you want to make a super-healthy income from your writing, you adapt your thinking to a new set of tools. Use your new tools effectively, and watch your creativity, sales and income soar.

"Writing For Online Cash: Turn Your Words Into Money" gives you the tools you need to launch (or relaunch, if you've been writing for a while) your writing career and make the income you've dreamed of.

Already writing but not making the income you KNOW you can make? Spare-time writers write for years making \$5000 a year or less. The ebook promises that you can turn that \$5000 into \$50,000 without writing more than you're writing right now, and probably writing less.

What could you do with an extra \$50,000 a year, made in your spare time? "Writing For Online Cash: Turn Your Words Into Money" shows you HOW to write ebooks, ezines, articles and more to make the income you've always dreamed of – without working hard.
