

Fun Time in Spain

Better Spanish with Fun

IMPROVING YOUR SPANISH LEVEL... HAVING FUN

Fun Time in Spain (FTS) is the easiest and most efficient way for those who want to practice Spanish as a language whilst having fun at the same time.

Our Programmes are orientated towards people who wish to come to Spain and get completely immersed in the language, the very best way to improve it.

It may be practicing some kind of sport or hobbies, living peacefully in a typical Spanish village, or following an itinerary that takes you to different places in Andalusia. **FTS offers you this excellent opportunity to improve your spoken Spanish in one week.**

How? Being completely immersed in an environment where Spanish is spoken 24 hours a day. Through the different activities organised in each Programme, the continuous use of Spanish will help you to become more fluent in the language.

Who are the FTS Programmes for? These Programmes are for those persons who are able to communicate in Spanish even at a basic level already, and wish to immerse themselves in the Spanish language, whilst enjoying some kind of activity or hobby at the same time.

This is not a Programme for new starters, but is thought out for those who wish to improve and become more fluent in the language of Cervantes and Don Quijote whilst enjoying pure holiday and rhythm-change time.

Fun Time in Spain:
the easiest and more enjoyable way to improve your Spanish... in Spain.
