

the best way to grow on earth...

with Soil Moist Plus™ family of polymer products.

Soil Moist Plus™ polymer products are environmentally safe water storing polymers with various nutrient ingredients to satisfy your customer's growing needs. Soil Moist Plus™ polymer products reduce plant waterings for several seasons. Depending upon product selection, Soil Moist Plus™ will feed a plant from three months up to nine months.

The Soil Moist Plus™ family of polymer products can help you cross-sell many other garden products. Available in bulk sizes for commercial applications.

Products are available in granules and convenient spike and disk styles.

The Soil Moist dealer receives a full line of polymer products featuring:

- Self-sell packaged products
- Colorful displays, merchandising support material
- Choice of sizes and styles - spikes granules, or disks
- Unlimited number of indoor and outdoor applications
- Easy to use with step-by-step instructions
- Customer technical assistance with a toll-free telephone number
- Competitive prices

Soil Moist Plus™ 7-7-7: A blend of water storing polymer and an 8-9 month timed release 7-7-7 fertilizer. Eight ounce and one pound jars packed 12 per case on the 8 oz. size and 6 per case on the one pound containers. Prepacked in each case is a shelf merchandiser.

Soil Moist Plus™ Spikes: A water storing polymer with a 3-4 month timed release 5-5-5 fertilizer in a spike shape. Easy to use, the spikes are ideal for applying polymer and fertilizer to an existing potted plant. Packaged 12 blisters per shelf display.

Soil Moist Plus™ Disks:

A water storing polymer with an 8-9 month timed release 10-10-10 fertilizer.

Convenient to use, the disk eliminates measuring small amounts of polymer and fertilizer. Packed in blister cards, 24 cards per case with two clip strips.

For information on the Soil Moist™ family of polymer products without fertilizer, refer to form 180.
