

## Over a Hundred Dollars of Free Bonuses to Launch Mike Reed's Long Awaited Day Trading Ebook

### "Read the Greed- Take the Money"

Contrary to popular belief, it's been said that 90% of stock, options and futures traders lose money - and many actually go broke. The risk of loss in futures is substantial. You can lose more than your original investment.

So when a day trader manages to survive for 24 years in the market, he commands a lot of respect amongst his peers. Mike Reed is a true survivor with a phenomenal amount of guts. From 16 May 2006, traders around the world will welcome the release of Mike Reed's long awaited new ebook, ["Read the Greed -Take the Money"](#).

In 1979 Mike was attending a Big Ten college on a full ride baseball scholarship, and was being scouted by a number of Major League Baseball teams. However a water skiing accident abruptly ended his chances for a career in professional baseball. But with a true winning spirit, Mike ventured into learning and then mastering one of the toughest endeavors possible - day trading of options and subsequently futures.

Experience is the greatest of teachers. Mike survived the 1987 stock market crash, was active during the "Roaring 90's", and was one of the very few who expected the 2000-2003 bear market. For the past 24 years Mike has studied the market everyday and followed the DJIA, SP500, Nasdaq, Value Line, and Russell 2000. Through dedicated research, analysis, trial and error, and just plain old hard work, he's mastered the tools required to day trade successfully.

For the past 10 years Mike has been the author of the *"RBI Trader's Updates"*, a nightly trading advisory that includes his outlook for the following trading day and the support and resistance levels that he will be buying and selling against. Mike also offers an intense week long *"RBI Trading Camp"* at which he teaches his no-nonsense approach to trading that he's developed and perfected over the last 24 years.

Mike Reed's long awaited new ebook, ["Read the Greed -Take the Money"](#) focuses on the trade entries that he has developed and has been using to make a living trading for the past 2 decades. This Ebook was written to give traders of all levels a toolbox of low risk/high reward trade setups - and to teach which trades to avoid.

When you order Mike's e-book you also receive this package of **BONUSES** valued at over US\$100:

1.) A video presentation by John Forman *"Identifying Day and Short-Term Trading Targets"*. It focuses on techniques to help pick out stocks likely to offer good opportunities for traders operating in shorter-term time frames. John Forman is the author of Amazon.com Top Selling book ["The Essentials of Trading"](#).

2.) A Complimentary copy of John Atkinson's e-book, ["7 Secrets to Profitable Online Stock & Share Trading"](#) - the 'Atkinson-Guppy Articles Part 2'.
