GAGE Phytolaboratories

"All-Natural Estrogen Cream Alternative for Treating Menopause Symptoms Developed by Gage Phytolaboratories"

Thank You for using the "Q&A for SmartPR" by Xeal Precision Marketing.

Please contact Thomas G. Matkov, MD at 1-800-685-4908 to learn more about GAGE Phytolaboratories' all-natural estrogen cream alternative, VagRenew. Below are ten suggested questions to get you started:

1. Why does there need to be an alternative to estrogen creams for menopausal or pre-menopausal women?
2. Are there any side effects to VagRenew, and if so, how do they compare to the side effects of estrogen creams?
3. What are phytoestrogens?
4. What are the other active ingredients in VagRenew, and what are their effects?
5. Why do estrogen creams and phytoestrogen creams like VagRenew need to be used internally?
6. Is VagRenew only for menopausal women or can it be used as an alternative or in conjunction with other hormone replacement therapy, like for women who have recently had a hysterectomy?
7. What are some of the major symptoms that estrogen creams are used to treat?
8. Are there alternatives to personal creams for treating the symptoms of menopause?
9. With the baby boomers becoming our senior citizens, about how large is the pre-menopausal and menopausal U.S. Population?
10. Although VagRenew is available over the counter, should women seek a doctor's advice before treating their menopausal symptoms with any estrogen or phytoestrogen cream?
