“ We provide travelers worldwide with a way to exchange ideas and honest opinions about all the hotels we have to offer. ”

When planning a trip, most consumers know that it is always a good idea to look around first and compare the different hotels that are available. The best way to do this is to look for independent hotel reviews. But knowing how and where to look for reviews and how to differentiate the genuine ones from the false ones is not an easy task. That is where Excelloz comes into place as only travelers who really stayed at the hotels before can post a review to it. Furthermore, every single review posted will be manually checked to ensure the highest quality.

Besides hotel reviews, Excelloz is also offering a Travel Guide section that lets people upload their travel experiences and share their photos with others. Travel guides can be written about any continent, country, city and about every imaginable topic. You choose the category in the easy to use upload form and your report will then be listed on Excelloz's [Travel Guide](#) section within 24 hours. All reviews are reviewed first in order to keep a high quality level and to filter out spam.
