

Duplicate File Finder and Removal Utility

ZsDuplicateHunter, the award winning duplicate file finder and removal utility from Ziasoft, allows you to easily find duplicate files, including music files, image files, text files, and binary files. You can search for duplicates in a single folder, an entire computer, or across a network.

Eliminating duplicate files from your computer will:

- ◆ Save space on your hard drive
- ◆ Allow your computer to run faster
- ◆ Speed up your computer backups
- ◆ Make file searches easier and faster

Easy to Use

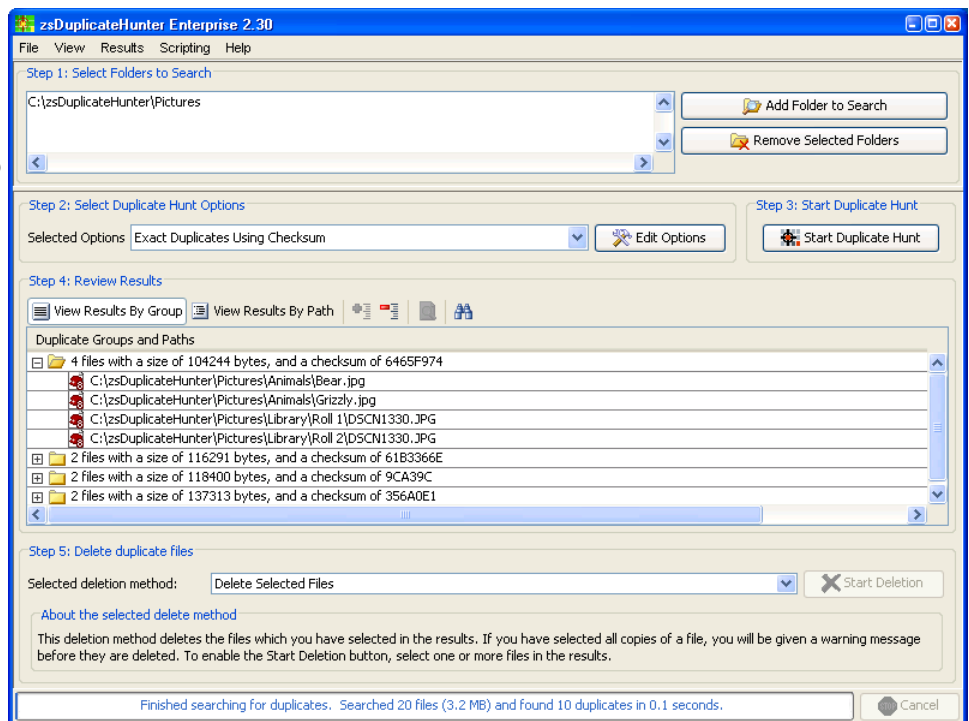

ZsDuplicateHunter is designed to be intuitive while still giving you the power to accomplish advanced tasks. All of the most important information is available on the main screen so you can accomplish everyday tasks easily. The User Interface is organized in a step-by-step layout, leading you through the hunt process.

Search Smarter

ZsDuplicateHunter provides powerful search filters to meet a wide range of needs. You can perform name-only searches, or you can search and group duplicates based on size, checksums, and digests.

The Professional and Enterprise editions allow you to group duplicate files by file extension, path, and timestamp. Once found, duplicates can be reviewed and safely removed at your discretion.

The Enterprise edition to even allows you to replace duplicate files with links so they can still be accessed from their original location.

Cross-Platform Availability and Three Editions

ZsDuplicateHunter operates on Windows, Mac OS X, and Linux, and is available in three editions: Enterprise (\$99.95), Professional (\$39.95), and Standard (\$19.95). With three editions available, users from all backgrounds can use the one best suited to their needs.

The table to the right provides an overview of the capabilities of each zsDuplicateHunter edition.

Free Upgrades and Support

All editions of zsDuplicateHunter include free lifetime upgrades and free technical support. Zisasoft offers fast free e-mail support to all zsDuplicateHunter users (registered and unregistered). Our support technicians typically respond to all inquires within a few hours to help resolves any problems you may have. ZsDuplicateHunter also comes with a getting started guide and detailed help manual to help you get the most out of zsDuplicateHunter.
