

“Twisting Pixels is Heaven In Your Hands”

July 14, 2006 – Twisting Pixels is pleased to announce the release of the next version of its incredible special effects applications and plugins for photographers, graphics arts, and imaging enthusiasts. Twisting Pixels products include feature rich visual effect filters that modify and enhance any image to achieve an artistic end result. With over 48 filters and plugins to choose from, Twisting Pixels offers something for every aspect of design.

PixelCreation, PixelPack, PixelPaper, and PixelSampler are built upon an interactive framework that allows the user to draw onscreen to manipulate the images in a dynamic, easy to understand manner. For example, users can interactively create fluffy clouds, romantic moons, or celestial constellations by just by placing them over the image. All products come with a very easy and intuitive preset system that allows the user to create unlimited possibilities and variations and ships with just under 100 presets already created.

PixelCreation is a powerhouse of 19 visual and tonal enhancement filters. This suite is designed to allow the user to create fabulously fluffy clouds, incredible moons, spectacular constellations, and celestial skies with easy to use tools.

PixelPaper's 15 effects are the most realistic visuals that could be produced using digital medium. The first 7 effects add depth and realism to any image, these include Bend, Crinkle, Crumple, Crunch, Curl, Fold and Wave. The second 8 effects are stylized edges that include Acid, Burn, Border, Corrosion, Edge, GrainStrips, Rip and WatercolorStrips. PixelPaper is now the most complete special effect package for depth and realistic stylized edges. PixelPaper was a customer favorite with just 7 effects, and is now ready to wow them even more with the total of 15.

PixelPack is a collection of fun filters that add a little flare to any project. The filters include RockCandy, Extrude, Label Maker, Stain, and Texturizer. These filters also include realistic lighting and textures.

PixelSampler is a truly revolutionary concept in that it brings 9 incredible photography filters to any design project, while being completely free for the end user. The user can recreate numerous film looks, antique photos, dreamy images, and thousands of other looks. A truly extraordinary value!

Twisting Pixels, LLC. is a corporation composed of some of the best engineers, artists, and marketing brought together to create a realistic and fantastic experience for the end user. Company headquarters are located just outside of the beautiful Las Vegas, NV and have been in business of 'twisting pixels' since 1991.
