XOFTspy™ Portable Anti-spyware
P r o t e c t   E v e r y   P C   Y o u   T o u c h

XOFTspy Portable Anti-spyware is the first U3 application to protect against spyware, the top internet threat.

Key Product Features

- Clean all the PCs in your home or small business with one portable U3 application solution

- Ensure your U3 device is protected against dangerous malware - protecting your privacy and identity

- Ensure every computer you touch with your U3 drive is safe for trusted use

- Thorough scanning and cleaning at unprecedented speed - empowering you to proceed with your business

- A tiny footprint - utilizing minimal space on your U3 drive conserves valuable memory for your data

Protect your U3 Smart drive and PCs. Detects and removes spyware, adware, trojans, keyloggers, browser hijackers and malware.
Protect your Privacy and Identity!

Spyware can install on your home and business PCs and U3 smart drive without your knowledge. Difficult to find and hard to remove, spyware can be used to steal your confidential information resulting in identity theft and credit card fraud. Anyone who surfs the Internet or shares files with other individuals is at risk. XOFTspy Portable Anti-spyware detects and removes all the spyware trying to install on your PCs or U3 smart drive.

"I believe that XOFTspy is an excellent program that can save you headaches and reduce your stress. I just used it over the weekend to eliminate some spyware that ended up on two of the three computers at home. All I needed to do was plug in my U3 smart drive with XOFTspy and it automatically cleaned the PC it was plugged into. I highly recommend this product.

Hats off to ParetoLogic for being the first industrial strength anti-spyware U3 smart application."
