Highlights

Some of our Internet Office clients

Contact Manager
Maintain Contact, Leads and Member information all in one convenient and centralized database. It provides personalization features while maintaining a secure and robust directory and database management solution. The software is intuitive, consistent and easy to use. Can store unlimited contacts.

Membership Manager
Track membership including levels, dues and payments, expirations, email notifications and more. Detailed report options complete this package. Automated billing coming soon.

Customer and Lead Manager
This module provides the intelligence to integrate both lead and customer relationship business processes into one easy-to-use system. This allows authorized employees to track, assign and manage leads, client communications, and help desk issues across your organization.

Calendar and Scheduler
This secure, web-based calendar allows access anytime, from anywhere! Share calendars among users or create special purpose calendars. Company calendar can automatically publish to web site. Automatically issues emailed invitations and records responses. Integrated with reminders. The scheduler conveniently works with your contact database to book client appointments, schedule conferences rooms, assign tasks and much more.

Newsletter Manager
Provides the functionality to generate professional HTML newsletters complete with graphics and hyperlinks to your News, Events, Sponsors and more - a necessity for business communication.

Campaign Center
Create and mail merge documents, emails and letters. Mass market information to your contacts and groups by creating autosigned letters or HTML emails. The integrated Template Manager allows you to create multi-use documents effortlessly!

Event Registration
Provides the ability to manage and publish professional Events to your website. Allows for Scheduling & Registering online for upcoming Events. The front end registration can be integrated to your merchant account for real-time online credit card processing. Generates detailed Billing Reports, Rosters, Badges, and more.

File Manager
All the convenience of the familiar Windows XP File Manager now available from any computer, any where - keeping your files in one easy to access location!

Content Manager
An advanced tool that allows administrators and members of your site to "self-publish" and maintain their News, Events, FAQs, Awards, Sponsors or other listings. Includes full Word-Like editor, spell checker and unlimited document size. Can attach images, MP3's, MPEG, Flash and MS Office documents.

Wireless Device Access
An indispensable tool that provides mobile access to add/edit contacts, calendar, tasks, email, and CRM notes from anywhere your mobile receives a signal.

Mail Center
Integrated with your contact database to easily create mailing labels and mail merge lists for export/import into other applications.

Project Manager
The project manager allows authorized staff to manage project information, notes, emails, files and more. Project Snapshots reports are easily generated with associated project information.

Task Manager
Manage tasks and to-do lists, assign to others, review, share and checkpoint progress. Integrated with the calendar, the reminders make this a must-have for executives and employees alike! Plus it's on your mobile, too!
