

## **PRESS RELEASE FOR IMMEDIATE RELEASE**

### **CMATHER.COM expands into Web Hosting Design and Domain Names**

Melbourne, Australia (PRWEB) September 01, 2006 -- Chris Mather - Group Operations Manager, officially opened CM-Web Hosting Services in the USA, UK and Australia, in particular Melbourne and Bendigo (Victoria). The new venture under the CMATHER.COM domain will provide Web Hosting, Design and Domain Name services to over 20,000 online members in 12 countries. "Having an online presence has never been this affordable, we have catered for the small business owner to provide cost effective web hosting and design services", said Chris Mather.

While CMATHER.COM concentrated on online advertising and marketing, they were inundated with requests to create web sites and provide hosting. Previously, customers were sent to third party sites affiliated with CMATHER.COM. "Outsourcing at the time seemed cost effective and the teams could concentrate on what they do best – online marketing", said Chris.

Early in 2006, seeing the potential, Chris and his team created the hosting and web design portal. While the service was offered offline to customers, the management team decided to release the offer online and provide all members with their discounted wholesale prices.

CMATHER.COM has teamed up with top web hosting companies, domain registrars and design services to offer (1) Affordable web sites, (2) Affordable web hosting; and (3) Unbeatable customer support.

"Your website is the first sales representative that comes in contact with potential customers. In fact, your website portrays you to the world 24hrs a day (even while you and your team are asleep). A professionally designed website can go a long way in creating a good impression about you and your company and hence bring more business to you", said Chris Mather.

Like to know more about our range of services we offer? Visit us online <http://www.au.cmather.com> and see how you can get a web site online within the next 24 hours. An introductory offer is available to get your business online fast.
