L16 = In the Upper Right Corner of the Dash  
L17 = To the Right of the Rear Defroster Switch  
L18 = To the Right of the Parking Brake  
L19 = To the Right of the Air Vent

### Difficulty Legend:

(1/4) This is a basic installation. Anybody with a little mechanical know-how can install one of these mounts.

(2/4) This rating is considered a little more difficult than the first, but if you routinely work on your vehicle or have changed oil before, you can handle it.

(3/4) This rating can be a challenge for the average person, but if you have the confidence, you can get through it.

(4/4) With the fourth rating, we recommend you consult with a professional installer or have the professional install the mount altogether. We know you can install it, but this is considered the most difficult installation and we advise caution.

++ Requires Audi/Mercedes Radio Removal Tool  
Part # **SIT-102** set of two.

### Other Tools:

Many of the CBM instructions call out for tools to help assist in the installation. Below are the Bracketron part numbers.

Professional Multi Dash Trim Panel Tool Set  
Part # **SIT-105** set of three

+++ Requires Standard Hook Tool  
Part # **SIT-103** one per package

++++ Requires Dash Trim Panel Tool  
Part # **SIT-104** one per package
