

## Keep more money in your schools!

### EZStub Eliminates Costs

National Payment values education, and wants to do its part to help keep more money in schools. Our EZStub electronic pay stub solutions bring immediate savings to school systems because they eliminate the cost of printing and delivering paper pay stubs. This savings combined with our reduced pricing plans for school systems allows for even more money to be saved. After all, our children are our future.

### EZStub Convenience and Security

EZStub provides employees secure access to current and past pay information with 24/7 online access. It is far more secure than storing paper stubs for future reference because others can see them, they can be lost, or left where others might take them. Paper stubs are usually passed through many hands in the process of delivering them to employees. EZStub electronic pay stubs are only seen by the employee who has password-protected access. Security is assured through many checks and balances so sensitive data remains safe and secure at all times.

- EZStub information is never cached in computer memory. All data is cleared upon log-off, which allows for secure data access at airports, hotels, or with any public Internet connection.

### THE BENEFITS ARE CLEAR

#### School System Benefits:

- No new software required for implementation
- Eliminates requests for pay stub reprints
- On-time delivery
- Eliminates any pay stub distribution costs
- Messaging feature
- Free rollout pilot program

#### Employee Benefits:

- EZStub is available 24/7 at [www.ezstub.com](http://www.ezstub.com)
- Access to current and past pay statements for quick reference when applying for credit to purchase a new car or home, or for tax verification
- Employees may choose additional delivery options such as email and text message notifications
- SSL (secure socket layer) encryption, VeriSign™ certificates, and firewall protection.

- EZStub suppresses information such as SSN, home addresses and bank account numbers to eliminate the chance of identity theft.

### EZStub Technology

EZStub incorporates state-of-the-art technology that enables employees to receive their pay stub information via email and wireless text messages.

### EZStub in School Systems

Payroll administrators save time and effort because employees are able to obtain current and past pay stub information on their own with EZStub's online self-serve features.

Payroll administrators and employees alike also benefit from EZStub's robust messaging feature. Just imagine having payroll deduction information or important announcements sent right alongside employees' pay stubs. Send messages quickly and easily to particular groups or to everyone!

*"The Citrus County School Board views EZStub as a service to our employees. We choose National Payment because of their ease of implementation, rollout process, low cost, and great people to work with!"*

– Sam Hurst, Director of Finance,  
Citrus County School Board
