## Video Surveillance for PSAPS

Your call takers and dispatchers are committed to protecting the communities they serve - saving lives every day is commonplace. During Congressional committee testimony into post-9/11 security issues, Bill Caruso, press spokesman for Rep. Rob Andrews (D-NJ), cited concerns about "attacks on the power grid, 911 systems, and other critical infrastructure." The need to protect your PSAPS is critical to ensuring public safety and homeland security.

TrueSentry is the most powerful **digital video surveillance system** on the market. Since it is from InterAct, a trusted name in public safety providing E911, dispatch, records management, and mobile data systems for over three decades, you can rest easy knowing you are being protected by a company who understands your needs. The members of our 24-hour support desk are there to take your call day or night in the event of an emergency...just like you.

## Our TrueSentry Starter Kit for PSAPs includes:

- > **Four cameras to place in strategic locations to secure critical areas such as your**
  - entryway
  - hallway
  - dispatch center
  - parking lot (includes outdoor enclosures for protection from the elements)
- > **One TrueSentry Network Video Recorder (NVR)**

## Base Package Starts at \$16,400\*

TrueSentry can be integrated into your CAD system, ours or anyone else's, for automatic dispatching and incident tracking. It can also be integrated into other access control devices such as door access pads and fire alarms.

Contact us today and learn why **The Heroes We All Rely Upon, Rely On InterAct™**.

\*Installation not included. Additional cameras, equipment and integration services available at an additional charge. Contact an InterAct representative to discuss options and receive a quote.
