## Supply Chain Solutions from Retail Professionals

Retail Distribution Management Solution (rDMS)
The Proactive Solution

rDMS PR

This triangle represents the sophisticated rDMS Problem Resolution system that identifies problems and immediately notifies the appropriate party for resolution via e-mail and an Internet browser.

With ASN

Receive ASN → (rDMS PR) Pre-Allocate → (rDMS PR) Unload → (rDMS PR) Audit → (rDMS PR) Ship

Without ASN

POs (replenishment, opportunistic buys, fashion)

Packing Slips

(rDMS PR)

rDMS can employ faxed or e-mailed packing slips as advance shipment notifications (ASN)

Vendor Fill History

Anticipated Receipts → (rDMS PR) Receiving → (rDMS PR) Validation → (rDMS PR) Process → (rDMS PR) Distribute → (rDMS PR) Ship

Allocation

rDMS identifies and expedites cross dock and opportunistic cross dock

Sorters

DC/Store Transfers

Appointment Scheduling

Freight Bill Reconcile

Build Pallet or Trolley

Audit

Complete Count

Sorting

Ticketing, etc.

Trolley Assignment

Internal Container Creation

Putaway

Cross Dock

Flat and Hang

Flat and Hang Truck Load

Storage for New Stores

Non-Convey

rDMS Sets the Standard

Compare other vendors and see how rDMS stacks up against the competition.

Distinctive Features	rDMS	Others
