JobOps Exhibiting at APICS 2006 with Sage Software

JobOps Streamlines Job Management Areas Like Quoting, Purchasing, Ordering Costing, Tracking and Field Service

Minneapolis, MN, Oct. 16, 2006 — JobOps, a Job Management Software solution that works with Sage Software's MAS 90 and Sage MAS 200 ERP systems, will be sharing its vision of a fully-integrated job management solution this month at APICS 2006. The conference and exhibition is being held at the Orange County Convention Center in Orlando, Florida from October 29-30, 2006. JobOps will co-exhibit in the Sage Software booth.

JobOps is a comprehensive solution for automating job management functions for manufacturing, distribution, and field service organizations. JobOps works in conjunction with Sage Software MAS 90 and Sage 200 ERP systems, providing small to mid-market companies with an application providing both operations and financial information from a single source. Core functions of JobOps include job estimating, orders, job planning, purchasing, bill of materials management, scheduling, job costing and tracking and field service. Optional modules include JobOps Product Configurator — a toolset that automates the building of custom products; and other modules for enhanced scheduling, field service & dispatch and integration with Sage e-Business.

APICS, The Association for Operations Management mission is to build operations management excellence in individuals and enterprises through superior education and training, internationally recognized certifications, comprehensive resources, and a worldwide network of accomplished industry professionals. For more information visit their website at www.apics.org.
