

InterAct School Safety Kit

Surveillance Cameras and Emergency Notification

Making Connections for Life.

InterAct School Safety Starter Kit

Protection for Future Heroes

Schools across the nation are recognizing the need to develop crisis plans and increase security to ensure the safety of students and faculty. InterAct is committed to equipping schools with the tools they need to minimize threats, proactively respond to incidents, and resolve critical situations. Our suite of surveillance, emergency notification, and crisis management applications help administrators maintain a safe and secure learning environment.

The InterAct School Safety Starter Kit for schools (K-12) includes:

Digital Video Surveillance System¹:

- > Four Surveillance Cameras to be placed in strategic locations.
- > A TrueSentry NVR for continuous recording and storage on a hard drive – no more video tapes!

Emergency Notification System:

- > 10 seats of MissionMode for key school coordinators. This includes access to an online Virtual Command Center where your team can coordinate and execute crisis plans.
- > Unlimited number of FREE “Parent Profiles” to be notified in case of an emergency²
- > One FREE Notification per month³ - notify an unlimited number of parents about anything.

Base Package Starts at \$9,995 with lease packages available for as low as \$380/month⁴

With the InterAct School Safety Starter Kit school administrators can:

- > Monitor the school without increasing manpower and integrate cameras with access control devices and alarms.
- > Receive automatic alerts of incidents via cell phone, pager or email, even as an incident is happening, improving response times to potential threats and incidents.
- > Access and control live cameras remotely via a secure web connection or handheld wireless device – and allow law enforcement to access them as well when needed.
- > Coordinate crisis plans using an online command center where team members can log progress, access critical documents, and assign and update tasks.
- > Communicate critical information and instructions to parents quickly.

Go to http://www.interact911.com/school_safety for more information.

1. Installation not included. Additional cameras, equipment and integration services available at an additional charge.
2. School will be responsible for inputting initial database of parent contact information. Parents may provide one form of contact (one phone number, pager, or email address). Parents can choose to upgrade to a premium account to input up to 6 contact methods for \$10/year to be split between InterAct and the school.
3. Additional alerts can be sent for \$0.30/person per alert.
4. Introductory Starter Kit Price offer expires 6/30/2007. One Starter Kit allowed per school. Monthly payment based on 36-month contract. Contact an InterAct representative to discuss options and receive a quote.
