### **Catalyst Named to Colorado Technology Fast 50 Program**

#### **Provider of Web-based Repository Systems Credits Growth to Helping Clients Manage Large Volumes of Documents and Information**

Denver, CO—October 23, 2006—For the second year in a row, Catalyst Repository Systems (formerly CaseShare Systems) has been named to Deloitte's prestigious Colorado Technology Fast 50 Program.

Founded in 2000 as a spinout from a large Denver law firm, Holland & Hart, LLP, Catalyst is a leading provider of secure web-based repository systems for complex legal matters. Clients and users include many of the largest law firms, corporations and insurers in the world.

The Colorado Fast 50 provides a ranking of the 50 fastest growing technology, media, telecommunications and life sciences companies in the state by Deloitte & Touche USA LLP, one of the nation's leading professional services organizations. Rankings are based on the percentage revenue growth over five years from 2001–2005 based on audited information.

"Deloitte's Colorado Technology Fast 50 companies have shown the strength, vision and tenacity to succeed in today's very competitive technology environment," said Kurt J. Randall, Colorado Technology, Media and Telecommunications Leader, Deloitte Tax LLP. "Catalyst has proven to be one of the fast-growth success stories in Colorado, and we applaud their dedication to making their vision a reality."

Catalyst's CEO John Tredennick credits the company's growth to its dedication to providing secure document review and case, claim and deal management systems. Tredennick said, "Our vision has always been to help cross-enterprise teams from law firms, corporations and insurers manage large volumes of electronic documents and work together on complex matters. From the beginning, we have recognized the need for secure central repositories to meet legal and compliance needs and it appears that our commitment has paid off. We are honored to be included among this prestigious group of fast-growing companies."

To qualify for the Colorado Technology Fast 50, companies must have had operating revenues of at least \$50,000 in 2001 and \$5,000,000 in 2005, be headquartered in Colorado, and be a company that owns proprietary technology or proprietary intellectual property that contributes to a significant portion of the

company's operating revenues; or devotes a significant proportion of revenues to the research and development of technology. Using other companies' technology or intellectual property in a unique way does not qualify.
