About The Author

Hello, my name is Steve Renner. I began Online Marketing back in 1998. I was just a construction worker at the time with no business experience at all. In fact I never even owned a computer before. But I realized that the Internet was the future and that's I needed to be.

So, I got my first computer, an Internet connection, and taught myself web design in my spare time.

In studying the Internet back then I discovered that FREE was a powerful concept, seemed like everything was FREE back then. So I designed a web site to give away Free Email and Free Web Sites. Then one day something magical happened. I ran across a new company that was giving away FREE Internet Access, so I became an Affiliate for them, Net Zero.

That's how I learned about Affiliate Programs, and I decided to start one for my site. Now for people to get Free Internet Access, they had to sign up at my site. So without even knowing it at the time, I had discovered a Powerful Concept, You guessed it, "Affiliate Marketing".

Well the website caught on like wildfire, and 10,000 Members signed up in the first week. So now I had 10,000 Salespeople out there promoting my site. Then I figured out that I could make money by offering Premium Services for a fee and pay out Affiliate Bonuses.

Now after 8 years, \$60 Million in sales, over 250,000 Affiliates, and Several \$Million in Bonuses paid out, I guess You could say have learned a thing or two about Affiliate Marketing.

And what I've learned is that my methods may be a little different than others but they work. In fact I use the exact same methods I'm going to share with You, every day, to generate Massive Cash Online.

Now I'm going to show You Step By Step exactly how:

How You Can Do It Too!

How To Use This Book

Dear Valued Friend And Reader,

This book was designed to use as a Reference. There is a flow to the logic which builds from One Chapter to the Next. I would suggest that You read it from top to bottom in order. Then, re-read any sections that You are most interested in.

The biggest challenge for me in writing this book was to keep Focused on making the points Concise and Clear in a way that anyone can understand, without going off on some sort of tangent.

I think most people are like me and have a Short Attention Span. I don't want to read sit down to read some 250 page E-Book. I'll maybe get through the first few chapters, and then plan to come back to it. Just seems like I never find the time.

I think a lot of authors tend to go On and On with the Charts and Graphs, Circles and Arrows and Double Spacing and Blah-Blah-Blah, just to pump up their book so it justifies the price.

I think it's more important just to Get To The Point and give You the information You need, without making You work for it. So this E-Book will be Short and To The Point.

I hope You enjoy reading this E-Book and find value in the knowledge that I will share with You here.

Apply these "Million Dollar Secrets" and You Will Achieve:

Financial Freedom - Success - Happiness - For A Lifetime!

A New Concept In Affiliate Marketing

Why This Book Is Different

This Training offers You the reader a different idea of Affiliate Marketing than You have probably heard before. While my thinking may be considered by some "Outside Of The Box" that's OK, I've used these same concepts and techniques to Generate Massive Cash, working Online.

And I'm no Genius; in fact, I was a construction worker with no business experience when I started back in 1998. So if I can do it, anybody can!

Most of the Internet Marketing Guru's You find selling their Training Books and CD's Online today have a similar version of how Affiliate Marketing should be done. And, there are some excellent ones available that I would highly recommend that You get. I've read many of them.

The problem is that while I agree that these methods will work for some people, for the majority of people, like me, they're just Too Complicated.

This Training is designed for the Average Person to show them exactly how they can earn Above Average Income working Online. In this book You will learn a different way to go about Making Money Online.

While some of these concepts are very similar to Traditional Affiliate Marketing, I use Different Techniques to Achieve The Same Results with out all the hard work, stress, and strain.

I call these my "Million Dollar Secrets" and I'll show You exactly how I went to living from paycheck to paycheck as a construction worker, to living an Exceptional Lifestyle as an Internet Marketing Professional.

And most importantly - How YOU Can Do It Too!

Secret # 1 – The 98% Rule

The 80/20 Rule

There's a concept in Marketing called the 80/20 Rule. It says 20% of the people in a sales force produce 80% of the results. Another way to look at it is 20% do all the work and make all the money, and 80% basically do very little or nothing.

Online Marketing has changed all that. The Internet has a 98% Rule.

The 98% Rule

The 98% Rule says that 2% of Online Marketers, the "Super Affiliates" make most of the money from Affiliate Programs, while the other 98% are only marginally successful, or give up and quit altogether. This is an amazing statistic considering the \$Billions that are spent online.

Traditional Affiliate Marketing

The reason for this is simple, Traditional Affiliate Marketing is Too HARD for the average person to do! It takes a very special person to become a "Super Affiliate".

You have to be super smart, organized, methodical, and diligent. And You need to have above average Technical Skills to be able to manage the 1,000's of tasks that You need to do on a daily, weekly, and monthly basis.

Plus, You're going to need to invest a good deal of Cash to get started and to fund the ongoing expenses of the business until it starts making money.

Marketing Professionals

I've been making a living Marketing Online since 1998 so I know a little about what I'm talking about. Traditional Affiliate Marketing is a specialized business. It requires training, and a lot of trial and error. It's not too different from other Professionals, like Doctors, Lawyers, or Engineers, to learn the business takes time.

Most successful Affiliate Marketing Professionals are highly skilled at what they do. Like You, I've read the books by the "Marketing Experts", the "Guru's", and the "Super Affiliates" and there's No-Way the average person could do what they are telling You to do.

Here's My Philosophy On This

Most Internet Pro's who have been at it for a while, make money selling the Dream. They want You to believe that it's so simple, just buy their books or Audio, or Video Courses and You'll instantly be making a fortune.

Well if it was that easy Everybody would be doing it. Right? Truth is that these Pros are One in a Million, and the Average Person doesn't stand a chance of duplicating what they are doing. It takes Skill and Talent, plus a lot of Natural Ability.

It's like Pro Tennis Players. Have You ever watched a Tennis Match like Wimbledon or the US Open on TV? These guys make it look so easy. Could You could buy an E-Book or a Video on Tennis and be out there competing with these Pro's overnight? No-Way!

It's the same with Internet Marketing. The Internet Pro's are in the upper 2%, and You and I are down in the 98%.

OK Steve, so if that's true, how can I make Big Money Online?

Well, that's what "Million Dollar Secrets" is all about. It's the Average Persons Best Chance to make an Above Average Income working Online, by using these "10 Secret Steps To Success".

Now, this doesn't mean that with Study and Hard Work You can't build a Successful Online Business using Traditional Internet Marketing Methods, You Can! Only with "Million Dollar Secrets" You can do it much Faster!

Copy Success

The Fastest Easiest way to become Successful in any chosen field, is to find someone who is Successful and copy them. Personal Development Trainers like Tony Robbins, Brian Tracy, Jay Abraham, and others all teach this. They call it Modeling.

Major Corporations use this concept in their Hiring of Executives. They call it Strategic Success Modeling.

Internet Marketing is no different. You need to find a Successful Person and copy them. Here in "Million Dollar Secrets", I have outlined a Step-By-Step Million Dollar Action Plan for You to Follow, Copy, and Model. Plus, I'll show You how You can get access to the Top Minds in Internet Marketing today who You can learn from, Copy and Model.

Special Authors Note:

I don't want to discourage anyone from pursuing their Dreams. If You want to make Your fortune with Traditional Online Marketing Methods that's great, I encourage You to follow that Goal.

In fact, the eventual Goal of everyone reading this E-Book should be to have Your Own Successful Online Business.

I would only suggest that You use the principals outlined here in "Million Dollar Secrets" to Make Money Right Away while You're pursuing those Online Goals.

Secret # 2 – Forget The Technology

The Learning Curve

Here's the problem, to create the type of systems You need to make any real money Online You're realistically You are looking at a 6 – 18 month learning curve, and an investment of several thousand dollars.

That's what's called The Technology Trap.

Here's A Sample Of What You Will Need To Do:

- Build a professional web site
- Get it hosted at a good hosting company
- Find a product to sell
- Or a Merchant to represent
- Get all Your high quality content set up
- Optimize it for the search engines
- Register with the Search Engines
- Research and add the best keywords
- Learn all the right meta tags to use
- Research the competition
- Get Your bids in for keyword ads
- Set up Your mailing list service
- Create effective emails
- Set up Your auto-responder service
- Write creative auto response messages
- Write Several Articles
- Submit Them To Article Sites
- Get Your tracking and analysis software tools
- Continually tweak and adjust Your web site content
- Tweak Your advertising
- Tweak Your email campaigns
- Set up Your Credit Card processing
- On and On and On and On and On and On

Here's a great chart that graphically shows this:

There's An Easier Way

Spend only 10% of Your time on Technology and 90% on Promotion

Now this makes sense, if You didn't worry about the technology, You could spend most of Your time on Promotion and Sales, using All The Ways And Means to Promote Your Online Business.

Secret # 3 – All The Ways And Means

Web Promotion Strategy

You need to use All The Ways And Means that You can to Promote Your business and make it successful. Let's assume for now that You have an Online Business web site that You want to Promote. Now what are some of the Ways And Means that You can use right away to get it going?

Here Are a few Examples:

Register Your web site with the Search Engines

Optimize Your Site With Keywords and Metatags

Start a Mailing List. This is without a doubt the one of #1 best ways to build Your Online Business. A List is a Marketer's Most Important Asset

Use a Signature File on all Your outgoing emails

Set up a Doorway Page aka a "Squeeze Page", with some Killer Ad/Sales Copy and cutting edge elements like Audio and Video.

Use FREE Bonuses like this E-Book to Attract and Entice visitors to Take Action and click on Your offer.

Have a Killer Web Site that will Convert Your Visitors To Buyers.

You get the idea. Now, we don't have time to cover All The Ways And Means in this training, but it's covered in depth in my book:

[Net Profit Power](#) – Affiliate Marketing For The New Internet

But wait, I thought You said I wouldn't have to worry about the Technology and do all this stuff. That's right You don't, I will show You a completely "Turn Key" System that does it all for You!

Secret # 4 – The Art Of Promotion

The Art Of Promotion

Why spend all of Your time learning how to do web design, search engine optimization, etc. etc. etc. ... when You should be out Promoting and making money. Now that makes more sense, right? The Secret is:

The Art of Promotion applies to any Online Business You are Promoting

- Marketing Your own Product, Service or Program
- As an Affiliate for an Online Merchant (Somebody Else's Product)
- For an Event or Seminar

The 3 Steps To Promotion

The Pre-Promotion – Promote the Impending Event (The Pre-Sale)
Pre-Promotion is to get people interested in the Product or Service You are Promoting. The key is to convert this interest into Action or Sale.

The Promotion – The Event (The Sale)
The Promotion the actual sale of the Product or Service or Event, whatever the price, it could even be FREE.

The Post Promotion – Promote the Next Impending Event (The After Sale)
The Post Promotion is always to Promote the Next Sale of Your Product, Service, or Event. This leads You right back into step 1 - Repeat The Process.

This is a just a simplified Snapshot version of The Art Of Promotion. But it's important that You become aware of the concept. You will use it over and over in the development of Your Online Business.

Secret # 5 – The Winning Edge

Developing The Winning Edge

Now here's the next Million Dollar Secret I want to share with You. At first glance it may seem that it has nothing to do with Internet Marketing, but in reality it has everything to do with it.

The Secret: To succeed in Online Marketing, just like to Succeed in Life, You need to have an Edge. Having The Winning Edge makes the difference whether You win or lose in the Online Marketing game. The Winning Edge is really all about Your Attitude. You can do everything else right, and still not succeed if You don't have the right Attitude. And what is Attitude? It's based on Your Philosophy. What You think and how You feel about things in life is Your Philosophy.

Your Philosophy creates Your Attitude, which affects Your Actions that bring the Results that are Your Life

Attitude And Belief

Get Your attitude right, and Believe that You can do it, and You will. If You think You Can Be Successful in Online Marketing, and You Believe It, then You Will. Reinforce this on a daily basis, and over time You'll get The Winning Edge. It's just like a snowball going down hill, it's small at first, then it gets bigger as it picks up speed, and then before You know it becomes Unstoppable. Once You Develop a positive Winning Edge Attitude in Your Life and in Your Business there's nothing stopping You!

Secret # 6 – Focus

Set A Goal

First thing You need to do to start Your Own Online Business is Set A Goal. Decide How Much Money You want to Make, and in what amount of time. I suggest that You make a Decision to earn \$1,000 per month within the next 90 Days. You can always re-adjust your Goals later on.

A Goal Statement included with this E-Book, "My Million Dollar Goal". Print this Goal Statement out and follow the instructions!

Get Focused

Focus is the concentration of Your attention or energy on something. With Your Internet Marketing Business You should have a Goal and a Plan to follow. Then You need to get Focused like a Laser Beam on it. If Your goal is Making Money Online then this should be Your Primary Goal.

Avoid Distractions

There are many distractions on the Internet. You may get an email with an exciting offer for an Affiliate program that sounds really good and decide to join. The a couple days later You get an email with another program that sounds even better, so You join it. The next day You get an offer from a third program that blows the first two away, so You join that.

Now You're jumping around from Program to Program and not accomplishing anything. There are so many opportunities coming at You constantly, it's hard to stay Focused on Your primary Goal.

Now You've got what's called Information Overload. You have so much going on that You actually can't do anything. What You need to do is, shut Your computer down, step back take a deep breath, take a walk around the block, and Get Back Into Focus on Your Primary Goal, Making \$1,000 Per Month within 90 Days.

Secret # 7 – Commitment

What Is Commitment

Commitment is the act of binding Yourself (intellectually or emotionally) to a course of action. Focus and Commitment work together. You have to have Commitment to stay Focused on Your Business and on Your Goals.

Be Committed

If You are Committed to Your Primary Goal of Making Money Online then You will have no trouble setting aside a few hours a day to do something positive for Your Business. Write a series of emails for an Autoresponder campaign. Or try writing an article to submit to an Ezine or Blog. Do some little thing every day to help Your Primary Business Grow.

Be Consistent

The Secret to Commitment is to Be Consistent. It's easy to find Yourself excited and high on the Business one day, especially if You've had some sort of success, and then be way down the next, if You've had some sort of set back. No matter what happens You need to keep an Even – Relaxed Attitude about Your Business.

Don't worry about the daily Ups and Downs, just stay Committed and keep working Consistently every day, and You will Succeed.

Consistency is the Key to Making Money Online. Stay Focused on Your Primary Goal, and work at it consistently, and You will be Successful.

If You have just 2 hours a day You can put into Your Business, then make a commitment to do it consistently. If You can only work at it 2 nights per week, that's OK as long as You are consistent. Don't waste time in front of the TV, that's not going to make You any money. Make a Commitment!

Take Small Steps

Focus, Commitment, and Consistency will allow You to Achieve Your Goals much faster. The secret is not to try to do too much all at once. Take it one Small Step at a time. Small Steps are easy to do. The journey is not as important as the final destination.

A Journey of a Thousand Miles starts with the First Step

Be Consistent in Your Focus and in Your Commitment to Your Goals and You will Achieve The Results You Desire!

Focus like a Laser Beam On Your Primary Goals!

Focus + Commitment + Consistency = Your Desired Results

Secret # 8 – Take Action

Take Action Now

Action is a Thing Done, a Deed, an Initiative, an Enterprise. Action means movement. Or Motion. A body at Rest tends to stay at Rest, a body in Motion tends to stay in Motion. For every Action there is an equal and opposite Re-Action.

This is a simple law of physics; it means that if You Do Nothing, then Nothing Will Happen for You. If You get into Action then Things Will Happen for You!

A Plan is only good if You Act On it. To achieve Your Goal of Making \$1,000 Per Month within the Next 90 Days, Take Action and Put Your Plan Into Motion, in order to Achieve The Results You Desire.

Consistent Action

Action Applied Consistently will allow You to Achieve Any Goal You may have. This is a Tried and Proven Formula for Success that Works!

This formula can be applied to anything and it will work. The Small positive things You Do to Build Your Business, Consistently on a Daily Basis and Compounded over time will turn into Big Results.

Like the story of the Penny. What if someone offered You \$50,000 Cash today or a Penny doubled every day for a month? Which would You choose? Anybody would probably take the \$50,000 right? But wait, a Penny may not sound like much but doubled every day, Compounded over 30 days is worth well over \$5 Million Dollars.

This is the power of Consistent Action - Apply this to Your Online Business and You Will Achieve Your Goals!

Secret # 9 – Leverage

Using Leverage

This is the Secret that I use to generate Massive Cash on the Internet!

Leverage is harnessing the efforts of many people, to do more than You could do by Yourself. You can use Leverage to multiply Your Income by 100 fold. That means that if You can earn \$1,000 a year Marketing Online, then with Leverage You should be able to earn \$100,000.

What if You earn \$1,000 per month, then with Leverage You could earn \$100,000 per month. Exactly, now You're getting the idea! OK so what does this have to do with Affiliate Marketing? Everything! That's how I was able to Generate over \$60 Million in Online Sales.

Affiliate Program Leverage

Affiliate Programs use the concept of Leverage. Online Merchants use Affiliate Programs to drive potential customers to their Online Business. It's proven that Affiliate Marketing is the best and most cost effective way for an Online Merchant to build their business.

So does that mean that You have to go out and start Your own Affiliate Program? You could, but then You need to become a "Super Merchant", and go through all the 1,000's of things You have to do to start an Affiliate Program. Why reinvent the wheel? There are 100's of excellent programs out there that You can join and use Leverage to earn an incredible income.

Hybrid Marketing Leverage

This is such a Powerful Idea that I will be devoting an entire training to it. The concept of Hybrid Marketing is to take Affiliate Marketing methods and apply them to a Network Marketing program. I feel this is the best way for the Average Person to Make Real Money Online.

Secret # 10 – Achieve Results

Learn And Apply - To Achieve Results

In developing Your Internet Marketing Business, the Greatest Secret of all that I can share with You is to Apply What You Learn to Achieve Results.

It doesn't matter how many E-Books You read, how many Videos You watch, how many Courses You Buy or Seminars You attend, if You don't take the Knowledge You have acquired and Apply It, You will not Achieve The Results You Seek.

“The Real Power of Knowledge is in Application”

The Million Dollar Secret to Achieve Results

First You need to Identify the Results You Want To Achieve. This would be Your Primary Goal. Focus on Your Primary Goal. The key is to be consistent in Your Focus.

Then do something positive each day to Expand and Build Your Business. This is Your Business, and no one else is going to do it for You. Remember the Penny Story. The smallest little things are important, like a Penny. Take some positive Small Steps each day, and with Consistent Action Compounded over time You Will See Big Results!

Focus Like A Laser Beam on the Target which is Your Goal

Focus + Commitment + Consistent Action = Your Desired Results

Invest In YOU

ROI (Return On Investment) is a term used to calculate the ratio of money gained or lost on an investment to the amount of money invested. It can also be the amount of Knowledge gained from an Investment in Your Own Education. Investors use ROI as a guide to see if an particular Investment makes sense.

I encourage You to Invest in Yourself, in Your Education, and in Your Own Online Business. The ROI is Huge!
