INTRODUCTION

I launched the political parody website WHITEHOUSE.ORG in July of 2001 with a simple, wholly juvenile mission: ridicule the mighty, lampoon the absurd, and mock the fanatical - using preposterously obvious satire.

Since then, WHITEHOUSE.ORG has received over 50,000 e-mails from the general public. Many are supportive missives from taste-impaired fans of the site's fervently tactless irreverence. Also common is vitriolic hate mail from GOP partisans - furious that their beloved President is being subjected to derision. Yet thousands of others are letters from people who, somehow oblivious to WHITEHOUSE.ORG's patently absurd content, believe they are on the official website of the Executive Branch of the United States government - and take advantage of the occasion to send their praise, grievances, and epiphanies to George W. Bush. Or so they thought.

For over five years, I have sorted through this steady stream of wondrous correspondence, and here offer a representative sampling for your voyeuristic pleasure. The nearly 600 e-mails contained in these pages offer what I've found to be a fascinating glimpse into not only the Presidential mailbag, but also the soul of a disturbingly manic, hyperpolarized era.

You'll laugh. You'll cry. You'll fear for the future of the human race.

My smart wife has asked me to relay to you her concern that a number of terrorists, acting together, could cause great harm to this country by simultaneously starting wildfires around the country, in and away from cities and towns, or even altogether remote areas. The tremendous logistical problems of dealing with all of these events at the same time would then offer other possibilities of creating a different set of urgent problems. It would be a horror.

We Have 10's of thousands of self service Gas stations and 10''s of thousands of Foreign students in country from what we consider terrorist Nations...If that doesn't scare you, I don't know what will! I sent this information to the Jacksonville Fl. FBI office twice in Nov. 2001, and once to the the gov's rewards site a couple months later..There has never been an indication that anyone ever read these messages nor is there any visable proof of an increase of security at our local stores.

It only takes one fanatic with a desire to be with allah, and an m-80 firecracker to destroy a city block or more, and a lot easier than renting apartments and bringing their own explosives.

I don't need to draw a picture on the outcome of a couple 1000 selected 20 to 50 thousand gallon gas bombs going off around the country.

I'm terribly sorry if this is not the right way of contacting you about this subject, but it was the only way I found.

On yesterday's news (On a Portuguese newspaper) I saw something that called my attention about the current problem the world is having about Osama Bin Laden. The newspaper were saying, that Bin Laden threatened about his next attack which will be somewhere you (americans) will never guess.

Well, this is purely a guess of mine, but you should not put that possibility asside... What would be the result of a nuclear detonation on the North Pole? If the ice meltdown it will the end of all coastal cities, and I think Bin Laden has the manpower to achieve that catastrophe if he's mad enough for that.

I was feeling sorrowful for the 911 and any terror events in the United states. So, i send this mail just wana say a little bit suggestion to your for build the peace of world.

I got a information from mine friend talking with me. I know that the Mercury Thermometer was selling in the hospital and any health agency, so anybody who can bought it easily. I think it should be a problem. Cause, the Mercury can become a chemical prankish tools' material.

When i was in study term, i understood that if the Mercury mix with the concentrated Nitric acid or other chemical substance, the fumes will appear and these fumes are toxic and flammable. if this procedure be done by volume, to engender fume will be more baneful than the any poison gas and it will to cause brain damage if inhaled.

For this reason, i think should to limit the Mercury Thermometer sale in any store where there can buy and search a superseded such as alcohol and other less toxic fillings.

I heard on the news of a possible Terrorism attack on 07/04/02. I was thinking of what could it possible be. So on the 4th of July Americans celebrate there Independents. What do must people do on the 4th of July. They shoot off fireworks. I was wondering what the likely hood of a company being establish that would manufacture fire works. This company would manufacture basically the main event fire work. Usually in the range of \$25 and up for the grand finally. Everyone would gather around the main event to watch. And instead of fireworks going off like we all think it would. Its filled with some type of highly explosive with chemical explosive in side. Can you Imagine if Osama Bin Laden Open up his own Firework Manufacture Company building this firework to explode. There could be explosion all across America. There is no rumor going around about this, it was just something I thought that could be possible and wanted somebody else to know what I thought.

I have been told that the plates for the twenty dollar bill were made in Iran, is this true? And i have been shown that when it is folded is shows what looks like to be the twin towers on fire, with america on one side and united on the other, representing the planes that hit them, and on the other side it shows the pentagon on fire. Also I have now been shown that on the right ear of President Franklin you can clearly see the face of Sadam. Are the people who take care of our money aware of this ?

Has this been known for a long time , or is this all just a fluke, concerned If we should be checking all of our money for a clue to the next attack.

Dear Mr. President or to the person that reads and selects all the important mailing sent to this address, I know it's the 11 of september today and your probably busy and alert for any terrorist attack against your interest around the world. But I can't stop thinking of this program on the Swedish television on the 1:st of september.

The program was called Nova and was sending an interesting part regarding the biggest so far known waterwave that the earth had had. They talked about it's disasterous effects and about the island La Palma with it's active volkano. That Island has a big clevish that's over 30 km wide. The experts was shure that the

volcano will burst within the next 100 years. If and when this would accour 20% of the island might fall or rather race into the ocean creating a wave higher than 650 meter - in its initial stage.

You probably allready know all this but if I was a taliban fanatic living in Sweden looking at the program I would send this information further direct to al Quida and Bin Ladin.

It would be the perfect terror attack as it would only take 8 hours for the wave to hit the east cost of USA. I do not know if you think this is important but if I, a regular married man of 46, can think of this terror attack so will Bin Landin. Please, at least verify to me that someone has read and forward it to the right persons.

Best regards, and hope you succeed to strike back all terrorism!

Its just a feeling I have I dont have any proof I just have a strong suspicion. I think someone should reassess the VA Hospitals computer systems to see how secure they are and if they are capable of hacking into our government's mainframe from that position. GOOD LUCK President Bush You are a good President. Please catch this damn conspiracy. I'm a retired Mississippi Army National Guard Officer. Last year I sent the White House Notice that I was concerned about Missile attacks on Commercial Jets because when we were returning to Karnack, Texas, from Barksdale Air Force Base there were two cars parked on Interstate 20 where planes pass over the Highway to land on the runway. A woman in Afgan type dress got out of the car in back and walked to the car in front. I would have call the Shreveport Police Department at that time had a Police car not been in front of me. However, since the officer didn't seem concerned I let it pass. But it continued to bother me so I sent a notice to the White House and the FBI tip line. We need to be sure that the approach to the Shreveport Airport is secure before Air Force One is allowed to fly into the Shreveport Regional Airport.

I am a resident of Vacaville, California. Within the past couple of weeks are city is now airing a station for the Iranian people in their own language. This concerns me as how do we as English speaking people know that the language being put on TV in their native tongue in script as well as spoken is in innocence? To me it seems a "no brainer" that to allow a station on TV in a language we can't understand, and knowing that terrorists possibly could have access to putting out cryptic messages both through the tv stations as well as on the Internet chat rooms etc...to pass on their messages to other cell members of their terrorist group. Is this something perhaps the White house should look into and stop in all cities who may be allowing it until Osama Bin Laden has been found and this terrible war is over. It concerns me greatly...it was not stopping Sudam Husame while Clinton was in office that in my opinion seems to have brought us to this worsening time of the terrorism taking over. Anyway, I had called the Chicago FBI Office about this and the lady I was talking to was rude and hung up on me. Well, the owners are Arab or something like that. I noticed they both had on the same rings one day. I asked them why they both had the same type of ring, they told me not to worry about it, it was something I didn't need to know about. Then, one night when I was working late I noticed some other's showing up at the store, it was closed for the day at this time, they all went into the store and into the back room. They to had the same type of ring on. I'm wondering if they have any affiliation with the Taliban? I thought I would let the President know since I got no where with the FBI. It's like my husband's insurance, most of the dr's went back over there before 9/11. When I told the FBI about that to they ignored me.

His target is real estate. He has purchades tons of property all over Broward County in FL. My thing is that he has no job. Who is funding the money for this? Certainly not him. What's the purpose for the real estate purchases? I'm beginning to be afraid of him because he is not rtght. He targets section 8 people that the Government assist, He threaten to get people kicked off of section 8 housing if they don't comply with His rules. He said all rules have changed. I asked him one day..what make yo think you can come into this Country and change things. His response..I know what I am doing.

These arab/egyptians own every convenience store, laundry mat, gas station and now i noticed some privately owned postal services' only because of America-the free country. These people have taken over this country..right under our noses and don't even realize it!

In January 03 or March 03 I was traveling I-40 from Little Rock Arkansas to

Memphis. The reason I'm sure of these dates, my mother was receiving cancer treatment in Little Rock. On I-40 toward Memphis I noticed a caravan of around 20 school buses. I thought they must have been transporting students for a huge event. When I began to pass them I noticed there were no names on the sides and that all were empty. I dismissed it and went on my way. I visit forums for discussion and yesterday saw a post of a man from Texas witnessing several empty buses with no names on them traveling together in Texas. He noticed the drivers were dark skinned which he dismissed as Mexican. Because of the alerts on schools he was very concerned. He did some research to find used buses sell for around 950.00 each. I sent him a post telling him I had witnessed the same and gave the time frame and he said that was the time of year he saw them also. In the forum everyone was saying how easy it would be to load a bus with explosives or how easy it would be to run an early route in the morning and pick our children up and take them hostage. I have sent a post to homeland security site, FBI and I'm also going to e-mail my congressman. I think this is worth investigation. How many of these buses have been purchased? Thank you for your time in this matter.

He needs to see this letter I received via E-Mail, from London asking me if they can send me \$35million US and put it in my account she says her husband was the Chief Security Officer for Sierra Leone. You have to see this letter. She does not want the money detected by US officials. She will give me a percentage if I let her put the money in my account. She will also send her son, he will come over to our country for investment. Please advise me, she wants an answer quickly. I have her E-Mail in front of me with her E-Mail address. Thank You

Yes my name is Edward [REDACTED] and i'm a rancher in North Dakota. I know your a farmer/rancher yourself and i've lost 27 cattle in the last 2 weeks, i'm wondering what in the hell is going on. I think some of the mexicans my neighbor has have infected my cattle with some kind of mexican disease. Could you look into this? Damn illigals and their bird flu. Can I be paid for my losses? My local representative hasn't returned my calls.

Is the al Qaeda advising the pregnant muslim women to have their babies in the U.S. as a long range plan? At a party, I heard somebody mention that there is an increasing number of Arabic women from the middle East having their babies here to take advantage of the automatic U.S. citizenship. When these babies are old enough to be terrorists, they can easily return to the U.S. as American citizens with American passports!

Mr. President, My husband just returned from Kuwait to be in shock about the way americans are taking all of this terrorist stuff. My father is also a military man. And we all agree that all of these people that are complaining about the spying issue must have something to hide or they wouldn't be fussing. We could care less if the government set up a video camera at our house. At least I know I would be protected. The intruders would even think twice if we were watched over a little more closely. And if all this fighting could have been prevented we would call you God. You are doing a wonderful job. There's more out here that believe in you than you know. Thank you for your time.

Most hair supply shops in Goose Creek are owned by people of middle eastern races. These shops changes their personnel for the entire shop every 6 months. Why? Are these people on 6 months visa's? This is a strange way to operate a business. Gas stations and hotels are own by what appear by non-Americans. You can shut cities down and by buying chemicals legally bombs can be made legally. We live very close to Naval Weapon's Station. This is scary. Check out these new hair business and owners and they can buy legal chemicals.

Dear President Bush,

I am concerned that terrorists are going to use subversive tactics to destroy family units on a big scale, I feel that these people are going to sever all their ties with religion and religious organizations and are going to secure positions of responsibility within public service organizations such as communications. Their objective will be to disrupt families and to destroy them completely. They will do this subversively by infiltrating communications between family members, using voice changers and other technology, They will recruit virile and attractive males to seduce and destroy family units.

The family is the foundation of society and our next line of defense needs to be the protection and strengthening of the family unit.

Thank you for being such an understanding President.

A Nigerian contacted me, his name is Proff. Charles C Soludo, well so he said... He said that he is from CBN and he is working with Pres. Bush to pay contractors back. Since my Mom told me about Nigerian guys marrying girls without them knowing, I'm a little panicked. He has some of my information but not my I.D. number. I just want to know if he (Charles) is speaking the truth. I would be very relieved if you can help me in this matter!! Thank you very very much.

Dear Mr. President Bush, Recently, I've been having terrible dreams about terrorist gaining access to our sewerage systems of large urban areas. I dreamed they have been secretly connecting bombs to destroy us in that method. Is our government paying attention to this area of our land? I have been having this nightmare for a couple of years now...I just didn't know how to contact you beforehand. I am glad you have this website available to U. S. Citizens so we can tell you what's on our minds and how we feel. Well, I feel this could be a possible source of terrorism from these evil people--attacking us underground... please look into this if you haven't already...they will do anything anywhere to destroy us...and I feel that this could be another method of theirs to hurt us. Thanks, Mr. President.....from Trev [REDACTED] in Minnesota.

Hi. My name is Fredrik and I come from Sweden. Isn't it time to stop all arabs from flying. The only way to stop terror is if the arabs themselves stop there "brothers". Stop all arabs from flying and going on public transportation, and it will resolv itself. Of course there will be a lot of international protest and namecalling, but how long can the onest arabs live whithout public transportation. God bless america and your war against terrorism.

1. everyone should have a license to use the internet.
2. block anyone with questionable backround.
3. all internet connection should use eye scan and finger prints
4. keyboards should confirm that the typist is the user.
5. all e mails should be charged just like mail. \
6. use thae extra money to help pay for things the president needs to secure our boarders and airports.
