“Computer Radiation Researchers Advocate Bio-Resonance Therapy to Safeguard Health in Technology Rich Environments”

Thank You for using the “Q&A for SmartPR” by Xeal Precision Marketing.

Please contact Borge Mork at +47 926 88 430 (GMT+1) to learn more about computer radiation and Computer Clear®. Below are ten suggested questions to get you started:

1. Who should be concerned about the health risks of computer radiation?
2. Are some types of e-smog more dangerous to humans than others?
3. How much scientific evidence has been done on e-smog and its effects?
4. What known health risks are associated with various levels of e-smog?
5. Can electronics devices be designed to emit less electromagnetic radiation?
6. Why doesn't the government regulate e-smog as it does other pollutants?
7. How can concerned citizens reduce the e-smog in their environments?
8. How does bio-resonance technology, like Computer Clear®, work?
9. When was Health Vibes Institute founded?
10. What other areas of research is Health Vibes Institute involved in?
