

Become a teacher.

Make it your New Year's resolution to make a difference.

It's affordable.

The *Passport to Teaching* program is an inexpensive alternative to a traditional university program or graduate school. In fact, when you enroll in January, you will save \$100 off the program fee.

It's flexible.

The *Passport to Teaching* program is for professionals ready to switch careers and even current educators who want to earn teacher certification. Complete the program as quickly or as slowly as you want within a year. You work toward certification on your own schedule and at your own pace.

It works.

More than 3,000 people have already taken the first step toward becoming a teacher through *Passport to Teaching*. 95% of principals who have hired ABCTE teachers say they are as effective, or more effective, than other educators.

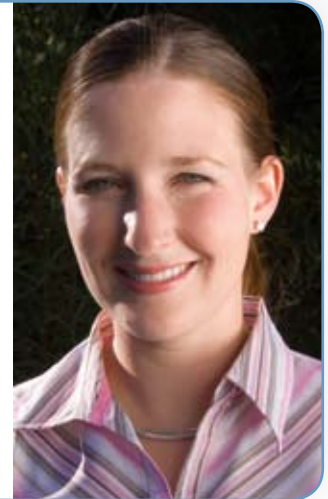

It matters.

Millions of children aren't getting the education they deserve. With your real-world experience, you can bring a subject matter to life for students in your community and truly improve education.

In 2002, Shelley Andrus, a paralegal, decided to change careers and become a teacher. She found a position teaching elementary school in Boise, Idaho. Rather than spending \$18,000 to earn her teacher certification through a local university, Shelley's superintendent recommended the *Passport to Teaching* certification program. Shelley enrolled in the program, earned her certification, saved tens of thousands of dollars, and is making a difference right now as a teacher.

"I love what I do. My favorite thing is the glimmer in a student's eye when they learn something."

Shelley Andrus

Did you know?

50% of current high school teachers expect to leave the profession by 2010.
