Wedding Flowers-DIY

"DIY Wedding Flowers Blossom into Savings for Brides"

Thank You for using the "Q&A for SmartPR" by Xeal Precision Marketing.

Please contact Jo Lind at 918.269.6965 to learn more about her step-by-step DIY wedding flower tutorials. Below are ten suggested questions to get you started:

1. How much money can be saved by arranging the wedding flowers yourself instead of hiring a professional florist?
2. What makes professional arrangements so expensive?
3. What kind of wedding flower tutorials are offered?
4. What's included with the step-by-step tutorial?
5. Where would a bride-to-be get the flowers and other supplies to make the arrangements?
6. Do you offer suggestions for how many flowers to get for each arrangement?
7. What if the bride-to-be doesn't know what kind of flower arrangements she wants?
8. How long does it take to make your own wedding flower arrangements?
9. If money isn't an issue, why should brides-to-be consider making their own wedding flower arrangements?
10. Are you available for more in-depth consultation than the free six months of email consultation provided with every order?
