VIP Task Manager 2.0 release: Customize it exactly for your needs

January 30, 2006 VIP Quality Software releases **VIP Task Manager v2.0**, group collaboration software for task management. The product helps workgroups, departments and companies to *plan, schedule, manage, track* and *report* tasks, appointments, projects, etc. The new version focuses on customization features that allow users to set the product exactly for their company workflow.

- **Custom fields** let users create their own parameters for tasks and group, sort and filter tasks by them.
- **Multiple Workflow** lets users create unique statuses for each type of tasks they have.
- **Watch List** lets users receive notifications of tasks even if tasks do not relate to users directly.
- **Comments** let users add comments to tasks, saving user's name and time of the comments
- **History** lets users track the history of all changes in tasks from their creation to completion

Also version 2.0 gains 12 features that improve application usability and GUI, such as Icons and Font Color setting, 'Find Task' option, Setting the time interval of Estimated and Actual Time fields, new fields in Attachments and Notifications panel, Possibility to automatically create a personal Task Group while adding a new Resource, etc.
